To the Warden and Council of the County of Peel :

Your Commissioners beg to report as follows :

Owing to the floods last May it took the top off and damaged the abutments of the county bridge on the town line between Albion and Toronto Gore. Second Report of Commissioner on County Bridges for the Village of Bolton.

To the Warden and Council of the County of Peel :

Your Commissioner reports as follows :

That the county bridge between Albion and Bolton required repairs, and I have

had new cedar abutment put in, four new cedar stringers and the planking relaid and approaches graded up at a total cost of $33.08.

The said work has been done to the satisfaction of your Commissioner and money drawn from the Treasurer and payment made.

All of which is respectfully submitted.

Report of Commissioners for the Townsips of Albion and Chinguacousy.

To the Warden and Council of the County of Peel :

Your Commissioners beg leave to report that they have been obliged to have two bridges rebuilt on the town line between Albion and Chinguacousy. These bridges as previously constructed were not of sufficient width to allow the water to pass off as quickly as it accumulated, therefore causing considerable damage to the roadway after heavy rains and during the spring freshets.

Your Commissioners thought it advisable to have them increased in width and heighth. We therefore increased them each 5 feet in width and eighteen inches in heighth.

1st. New bridge opposite lots 6, Albion, and 23, Chinguacousy, let to Thos. Weir for the sum of sixty dollars ($60).

2nd. New bridge opposite lots 7, Albion, and 24, Chinguacousy, to Thos. Weir for the sum of forty-nine dollars ($49).

Your Commissioners also disposed of old material left from said bridges for the sum of $4.50, which amount has been handed over to the County Treasurer.

The span was 20 feet, built with good cedar abutments, filled with stone, and railing neatly adjusted. The County of Dufferin to pay half the cost, the other half to be paid over to your Commissioner.

All of which is respectfully submitted.

First Report of Commissioner on County Bridges for the Township of Chinguacousy.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your Commissioner's attention was attracted to the unsafe condition of the bridge over the river Credit on county line with Halton, near Terra Cotta.

According to appointment I met the 1st Deputy-Reeve of Esquesing, and on examination we found the bridge as represented, extremely rotten and unsafe. We therefore concluded to go on with the construction of a new bridge and the repairing of abutments.

After due consideration we decided to have built one of Price & Grafton's suspension under-truss bridges, the length of span being 56 feet.

We communicated with Mr. Grafton, one of the patentees, and received from him a tender for $315, which we accepted.

The repairing of abutments was let by public tender to Duncan McArthur for $28. As the above contracts are to be completed on or about the 1st of February, 1895, your Commissioner would recommend that on the order of your Commissioner the Treasurer pay Peel's portion of said contracts.

We might further state that we purpose advertising and selling the old bridge, the proceeds of which we will pay to the county treasurer.

Report of Commissioners on County Bridges for Chinguacousy and Toronto Township, on Bridge between these Municipalities.

To the Warden and Council of the County of Peel:

Your Commissioners beg leave to report as follows:

Your Commissioners' attention was called to the unsafe condition of the bridge over the river Credit at Churchville, and we found the bridge and abutments in a very unsafe condition and beyond repair, excepting at a large cost, so your Commissioners decided to have a new bridge and abutments built.

Your Commissioners had plans and specifications prepared by Mr. Lightheart for a wooden structure and asked for tenders. We also received tenders for the Price & Grafton bridge, and we accepted the tender of A. S. Lamb for the Price & Grafton bridge at $485; the contract for driving piles was given to A. S. Lamb, he to supply the piles and drive them for $5 each, the planking of abutments to be done with white oak plank at the rate of twenty five dollars per thousand.

Your Commissioners also state that they have sold the old bridge for $40, which amount will be paid over to the County Treasurer.

Your Commissioners would also recommend that the Treasurer pay the above amounts on the order of your Commissioners.

First Report of Director of Credit Valley Railroad.

To the Warden and Council of the County of Peel:

On my appointment as Director I wrote to Sir William Van Horne, Pres. C. P. R'y, demanding a pass over the C. V. R'y. On the 16th February I received a letter from the Pres., absolutely refusing any pass to Directors. On looking over the records of the Credit Valley Railway, I found a bond from the C. V. R'y, of seventy thousand dollars, conditioned to erect and maintain certain free warehouses for the storage of grain at certain stations in the County of Peel. I then wrote again to the Pres. of the C. P. R'y, sending a copy of said bond, and on the 8th April I received a reply, which I hereby submit. I then notified the C. P. R'y of the time of the meeting of the County Council of Peel, and arranged with the Superintendent, Mr. Leonard, to meet a Committee of the Council, either on the 19th or 20th of June, at Brampton.

I would therefore suggest that the following Committee be appointed:

Mr. Lyons, Mr. Scott, Mr. Graydon, Mr. McCauley and myself.

All of which is respectfully submitted.

Report of Special Committee re. Poor House.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Special Committee appointed to report re. the establishment of a Home for the Poor, beg leave respectfully to report as follows:

That your Committee, in accordance with your instructions, have endeavored to obtain such information as was possible.

1st. The cost to the County for the maintenance of the poor by the separate municipalities, which we find amounts to $2417, and is based on an average of eight or ten years' expenditure.

2nd. The cost to the County, and to aid your Committe in arriving at a correct

conclusion, they have had before them the reports of the different Homes in the Province, and comparing their need and expenditure with what your Committe are of the opinion would meet the wants of this county :

Farm of 50 acres, costing, say	$ 2500 00
Buildings to accommodate 40 Inmates	5000 00
Furnishing House, Stock, etc	1000 00
Making total of	$ 8500 00
From which deduct Government grant	2500 00
Leaving cost to County of	$ 6000 00

As amount of capital necessary to invest.

Estimates of Yearly Expenditure we have estimated as follows :

Interest on $6000 at 5 per cent	$ 300 00
Cost of, say 34 Inmates at $1.25 per week, which is sufficient to cover all expense of Officers' Salaries, keep of Inmates, etc	2210 00
Making Annual Cost	$2510 00
From which we deduct proceeds from Farm, etc	500 00
Leaving the Yearly Expenditure	$2010 00

Which, compared with the present cost to County as above stated, would leave a balance of $407.00, a yearly saving to the ratepayers of the County, which amount if collected and placed as a sinking fund would inside of 12 years pay the $6000.00 invested.

And while your Committee are not prepared to recommend the establishment at present of such a Home for this County alone, they would recommend that immediate action be taken, tending to the Union of this County with the County of Halton or Dufferin, or with both, feeling assured that could a Union be formed the expenses would be so much less, there would be then sufficient inducement to incur the needed outlay.

All of which is respectfully submitted.

The Commissioners of both counties were unanimous in agreeing as to the necessity of a bridge, and it was finally agreed that a steel bridge was to be built there, the County of York agreeing to pay a full half of the cost of both bridge and abutments, leaving the approaches to be dealt with by the municipalities adjoining.

12th. Blain & Graham, Solicitors, account for services rendered in Shane vs. York and Peel	120 87

Your Committee would recommend the consideration of said account to the whole Council in committee.

NOTE—

Council recommends that the account of County Solicitor be referred back to Commissioner, with instructions to have the account settled to the best interest of this County.

13th. A Communication from Captain Windeyer, asking for a grant in behalf of No. 2 Company 36th Battalion, to provide better rations for the men while in camp.

Your Committee do not feel that they should discriminate between any of the Companies in the Battalions, and would therefore recommend the sum of 25 cts. per day to each man in each Company having their headquarters in the County, said amount to be applied in aid and for the purpose of assisting to meet the amount of rations for the Peel Battalion for the present year's drill.

14th. Your Committee have also had before them a Communication from the President of the County of Peel Agricultural Society, asking the usual grant.

We would therefore recommend that the sum of $300 be granted the above Society; $50 to Caledon; $50 to Albion and Bolton.

15th. Your Committee herewith submit a By-law to assess the rateable property of the County of Peel for County purposes—the payment of a portion of the salaries of the Inspector and Teachers of Public Schools, and for other purposes.

16th A Communication from the County Treasurer in regard to the estimates of 1895, attracting our attention to the fact that there is an increase over last year of $1353.00, attributable: 1st. To $863.00 paid for Churchville and Terra Cotta bridge, which was not provided in last year's estimates, and for which we are now indebted to the bank, and 2nd, To a deficit at the end of last year of $702.00.

Your Committee would recommend that a sufficient amount of money be raised for current expenses, without borrowing, shortly after the taxes are paid.

Your Committee might further state that they approve of the manner in which the estimates are itemized this year, showing the amount to be paid separately to Gaol Officials, etc., Sheriff's Account under Jury Act, County Attorney and Clerk of the Peace, and Constable's services, which in the opinion of the committee is undoubtedly more easily understood by the ratepayer.

All of which is respectfully submitted.

Second Report of Committee in re. Director of C. V. R'y.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Committee had before them the Superintendent of the C. P Railway and their lawyer, Mr. McMurchy. After going into the matter of the Bond given by the C. V. Your Committee therefore recommend that the Clerk do notify Mr. Leonard that this corporation require the Canada Pacific Railway, as the successors of the Credit Valley Railway, to carry out all the provisions of the Bond signed by said Corporation of the Credit Valley Railway, as to the building and maintaining of certain free warehouses on said line; also as to a station between Cooksville and the Township of Etobicoke, and all other matters (said bond bearing date 8th of November, 1872).

TREASURER'S REPORT.

To the Warden and Council of the County of Peel:

GENTLEMEN :——

In respect to the Estimates placed before you for the year 1895, I desire to call your attention to a few of the items that may require some explanation.

1st. You will see by comparing the estimates now before you with the estimates of last year, that there is an increase over last year of $1353.00. You will naturally ask the cause of the increase. My explanation is this :

First, I have paid for Churchville and Terra Cotta Bridges $863.00, which was not provided for in last year's estimates, and for which you are now indebted to the Bank.

2nd. There was a deficit at the end of last year of $702.00.

Now, I do not think that it is in the interests of the County to commence borrowing money for current expenses two weeks after the taxes are paid in.

Any further explanation that may be required will be cheerfully given.

Your obedient servant,

ROBERT CRAWFORD,

COUNTY TREASURER.

TREASURER'S OFFICE, COUNTY OF PEEL,

AUDITORS' REPORT

To the Warden and Council of the County of Peel:

GENTLEMEN :——

Your Auditors beg leave to report that they have carefully examined the books and accounts of the County Treasurer, Robt. Crawford, Esq., for the Quarter ending December 31, 1894, and the resolutions and vouchers giving him authority for payment of the same, and find they are correct and correspond in every respect with the various entries.

At the special audit on the 30th of Sept. last a surplus of $177.91 appeared in the Dominion Bank. This was reduced by an item of $61.00, accounted for since, and the balance of $116.91 has been carried to the credit of the General Account.

We find that several large items of unforseen expenditure cropped up during the last few months of the year, which overdrew the Estimates, and leaves the Treasurer on the 31st December with an overdrawn Bank account of $702.37. Would suggest a very careful estimate be made during the current year so as if possible to reverse the above.

In the Public School Account we find a credit balance of $1521.79.

We cannot close our report without a word of praise to the very correct and business-like manner in which we find the books of the Treasurer.

All of which is respectfully submitted.

R. W. BURRELL,
JOHN D. GORDON, } AUDITORS.

[Adopted.]

R. B. HENRY, WARDEN.

January 25th, 1895.

Report of Committee on Claireville Bridge.

To the Warden and Council of the County of Peel:

Your Commissioners beg leave to report having met on the Town Line, between Toronto Gore and Etobicoke Townships, near the Village of Claireville.

After examining the road where it is proposed to build a bridge over the west branch of the Humber, we find it impossible for the Townships to construct a road on

the original road allowance; and as the said Townships will be put to considerable expense in purchasing about 200 rods of roadway, we would recommend that no action be taken at this session of the Council in the matter of building a bridge, but that it be laid over to the January session in order to give the Townships interested more time to consider the matter in reference to purchasing and making said roadway.

2nd. From the Council of the County of Perth, re. amendments to the Ditches and Water Courses Act of 1894. In reference to this communication, your Committee do not consider they have sufficient time at their disposal at the present time to give it the consideration it requires in order to report intelligently upon the different amendments referred to in communication. Therefore, would recommend that no action be taken in the matter.

3rd. From the Council of the County of Norfolk, with copy of petition asking co-operation in petitioning Legislative Assembly of the Province of Ontario to so amend the Municipal Act, re. Bridges on County Lines, as to give power to County Councils to pass by-laws to arrange with the minor municipalities for the building and maintaining of all bridges on county boundary lines opposite minor municipalities bordering on the same. Your Committee do not consider the amendments asked for would be of any advantage over the present system, therefore do not recommend them.

Report of D. Kirkwood, Clerk, on Arrangements made for the Maintenance of the Child left at the House of Thos. Barker.

To the Warden and Council of the County of Peel

GENTLEMEN,—

I have the honor to report that, under instructions from this Council at their last meeting, I endeavored to have the child, which was left at Mr. Barker's, placed in one of the Public Institutions in the City of Toronto.

I first visited the Protestant Orphans' Home, that institution being suggested by a member of Council, but found that none were there admitted under three years of age.

Next I visited the Infants' Home in North Toronto, with no better result, as the Matron informed me that it was a city institution only, the city supplying a sufficient number of foundlings to occupy all their room; that the fees were purposely so high as to make it prohibitory to outsiders.

During this time the child was still at the home of the Barkers', and Mrs. Barker both wrote me and called at my office, urging its immediate removal, as she would not keep it on any conditions.

After consulting the Sheriff and County Treasurer, we endeavored to get some one in the town to take it, but were not successful. Finally a Mrs. Wilcox from Burnhamthorpe called when I was from home, but leaving a letter for me, which led to further correspondence, and resulted in her taking it in charge at $1.50 per week until the Council should meet, when the arrangement would terminate, unless agreeable to all that it be continued, and I have since learned that she will only keep it for increased pay.

The communication from Mrs. Barker will be laid before your Finance Committee.

All of which is respectfully submitted.

D. KIRKWOOD.

Your Committee appointed to correspond with the County of Halton in reference to the establishing of a County Poor House, beg to report that we have had a communication from the County of Halton stating that when they take action it will be on an independent basis; and while your Committee feel assured that the poor of our county could be more economically cared for than as at present, they do not feel that it is in their province to recommend any immediate action, yet they would beg to call their attention to the fact that we understand that about twelve able-bodied men are being kept by our county, and they belonging to other counties. We would like to known how these men are thrown on our county, while our poor are, many of them, in want; and would further ask, as your Committee is an inexpensive one, that they be allowed to further continue their investigation.

Auditors' Report.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Auditors beg leave to report that they have carefully examined the books and accounts of your Treasurer for the year ending December 31st, 1895, and have found properly authenticated vouchers to correspond with the various entries.

The balance on hand at the end of the year, as shown by the Treasurer's bank book, was as follows:

Current Account	$ 878 51
Public Schools	1337 51

We find that the Treasurer in making his estimates carried out the suggestions of

the Auditors of last year, so as to show a surplus rather than a deficit, and we further suggest that in the estimates of the current year a rate be levied to provide a still larger surplus, thereby saving the large amount being paid for interest, which for the year just ended amounts to $469.01.

We also find that with respect to the Non-Resident Tax the accounts all balance, showing that the monies have all been paid to the respective Municipalities.

We also beg leave to thank Treasurer Crawford for his kindness in assisting with the audit, and to commend the business-like manner in which the books are kept.

All of which is respectfully submitted.

First Report of the Committee on County Bridges for Township of Toronto.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Commissioner was notified of the bad condition of the hill west of the River Etobicoke on the Middle Road. Your Commissioner went and examined the place and notified the Commissioners for York and met them on the grounds, and decided with them to haul the clay that had slid from the hills on each side of the road; also to deepen the ditches, dig two drains, one on either side of the road, one 60 the other 66 feet long, put in inch tile, cover the tile 18 inches deep with gravel from the river.

The Warden of York appointed the Reeve of Etobicoke to act with your Commissioner and have the above specified work done. We agreed to do so, put out posters and let the work by auction for the small sum of $15.00, to be paid on the order of your Commissioner.

All of which is respectfully submitted.

Second Report of Special Committee re. Poor House.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your Special Committee appointed to report on the erection of a poor house or home for the destitute, beg to report that they have had before them, from the Women's Christian Temperance Union of Brampton and Port Credit, a communication pressing for more suitable accommodation for the destitute of our County than that supplied in the County Gaol. And while your Committee are in full sympathy with the prayer of said communication, and are fully satisfied that the poor of our county could be more economically and thoroughly cared for in a county institution properly managed than by any other means : Yet, in view of the fact that this Council or present system

of county government will expire with the present year, your Committeee feel that it would be useless to recommend any action on your part. At the same time we would express the hope that the new County Council will see the wisdom of establishing such a home.

All of which is respectfully submitted.

BRAMPTON, June 16, 1896.

TO THE WARDEN AND COUNCIL OF THE COUNTY OF PEEL :

GENTLEMEN,—

I herewith submit the Estimates for 1896, which you will see are $655.00 less than the levy made last year. I have not placed anything in the Estimates for new bridges, as I had not heard of any to be built this year. There was a balance in the treasury of $878.51 on Jan. 1st, 1896, as against a deficit the previous year of $1702.00. I think it would be wisdom to continue with the same levy for another year, and by so doing reduce the interest account. Your Obedient Servant,

R. CRAWFORD, Co. TREAS.

4th. Your Committee would recommend that the Sheriff be asked to allow the prisoners in Gaol to keep all snow removed from sidewalk in front of Registry Office.

5th. In reference to the accounts of an irregular character passed by the last County Board of Audit and paid by the Treasurer, your Committee instructed their chairman to obtain a legal opinion in respect to the liability of the County in regard to said accounts, and the following is the advice received from Mr. B. F. Justin.

Brampton, 2nd December, 1896.

The Warden and Council of the County of Peel:

GENTLEMEN,—

I am asked my opinion as to whether the Police Magistrate of the Town of Brampton, who, I understand, is appointed without salary, is entitled to recover from the County of Peel fees for services rendered by him not coming under the head of Criminal Justice, such as cases of vagrancy; and also whether the Chief Constable of the Town, who, I understand, is paid by salary, is entitled to collect from the County fees for services rendered by him in such cases.

So far as I have been able to find, in the short time at my disposal, the point has not been decided by judicial authority, and I have therefore to base my opinion upon general principles and the construction of the Statutes.

The Statutes provide that the Town shall have a police office, and that the Police Magistrate, or in his absence, the Mayor, shall attend at such police office daily or at such times as shall be necessary for the disposal of the business brought before him.

The Statute further provides that the County Jail shall be the jail of the Town, and that the Sheriff and Jailer "shall receive and safely keep, until duly discharged, all persons committed thereto by any competent authority of the Town." It further provides that in case the County Town has not a lock-up approved by the Inspector of Prisons, and the County Jail is used for the purpose of a lock-up, the Town shall pay to the County a reasonable amount for the use of the jail as a lock-up, and for the expenses incurred thereby and in connection therewith.

I therefore am of opinion that the County is not liable to pay such fees, either to the Police Magistrate or to the Chief Constable. On the contrary, I am of opinion that the Town is liable to pay to the County a reasonable amount for the use of the jail for such purposes.

B. F. JUSTIN.

5th. Your Committee would, on the strength of the opinion of B. F. Justin, recommend that the Treasurer be instructed by this Council to refuse payment of all such charges in future.

All of which is respectfully submitted.

Report of the Special Committee re. the Running of Bicycles.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your Special Committee appointed by resolution of Council to take into consideration the advisability of memorializing the Local Legislature re. the running of bicycles in rural municipalities, and asking that a law be enacted defining : 1st. The taxing of every wheel by the year or season. 2nd. Making it necessary for a rider to dismount when meeting a person with a horse and vehicle. 3rd. The running of bicycles not to exceed a greater speed than a number of miles laid down by law.

Your Committee, while strongly sympathizing with the agricultural class in rural municipalities, who pay taxes, and find themselves frequently handicapped by meeting persons on two wheels, which is very annoying indeed to some horses, and often causing them to run away, thereby endangering life and property.

But, as the bicycle is a new and novel method of travelling, and only of late has been seen frequently on our highways, and in view of the fact that the bicycle has been held in courts to be a legal mode of travelling, and the rules thereof apply to half the road and the right side in passing, your Committee feel that they would be premature in memorializing the Legislature at this juncture.

Your Committee might state, however, that should the running of bicycles continue to be popular, that doubtless there should be some legislation defining and regulating the same by giving rural municipalities power to pass by-laws, which, if passed, we trust would be in the interest of all, both wheelmen and the travelling public.

All of which is respectfully submitted.

We let a contract to Messrs. Hall & Williamson for fifty dollars. The contract was done to the entire satisfaction of your Commissioner.

I hereby return said twenty-five dollars, the receipt of which is hereby acknowledged by the County Treasurer.

9th.	John Graydon, 1 day's commission	3 00

10th. A communication from Sheriff Broddy, re. painting in corridors of Court House.

Resolved—That we have the outside doors, steps and halls downstairs painted, and that the Sheriff and Clerk superintend the work, utilizing prison labor to do said work.

Also a communication from Sheriff Broddy, showing forth the necessity of having a furnace and apparatus placed in the gaol, and electric light to take the place of coal oil for lighting the building. He further asks for the placing of closets in the gaol.

Your Committee are of the opinion that owing to the hardness of the times and the fact that the stoves and light already in use are adequate to the requirements of the county, your Committee would therefore recommend that no action be taken. As to the request for the closets, we also deem them unnecessary at present.

All of which is respectfully submitted.

Report of Special Committee to Draft Letter of Condolence and Regret on the Recent Sudden Death of the Esteemed Representative, Mr. J. J. Price, Second Deputy-Reeve of Toronto Township.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Whereas it has pleased the Almighty in His Divine Wisdom to call from our midst our esteemed fellow-councillor, Mr. J. J. Price, Second Deputy-Reeve from Toronto Tp., who has been a member of the County Council for 1895-96.

Whereas Mr. Price has endeared himself by his unassuming and generous kindness to all of the members of this Council, we take this, the first opportunity, to place on record our very high appreciation of his many good qualities. He was cautious and gave every question which came before this

Council his best consideration, and his opinion on all questions was always received as coming from one who had given them mature thought.

Therefore we hereby tender our deepest sympathy to the bereaved family and relatives of the deceased in their loss, also of recording and testifying our loving appreciation of the many excellent qualities of the deceased. We believe him to have been a kind father and a wise counsellor, one who will be greatly missed from the community in which he dwelt.

We would commend you to the care of Him who has promised to be a friend to the widow and fatherless. May He be your guide and consolation in all troubles and trials, believing as we do that all things are done for a wise purpose, even though we cannot see it now.

We would recommend that a copy of the foregoing resolutions be engrossed by the Clerk and forwarded to the bereaved widow and family.

All of which is respectfully submitted.

Report of Commissioner for Toronto Gore and Bolton.

To the Warden and Council of the County of Peel :

Your Commissioner found the bridge on the Town Line between Bolton and Albion, known as the "Glasgow Bridge," over the River Humber, in a dangerous state, the timbers being very badly decayed, and requiring a new structure, complete.

I advertised and let by public auction, to the lowest bidder, the construction of cedar abutments and truss superstructure, complete, for the sum of one hundred and fifty three dollars; the said structure to be completed on or before the 1st July, 1897.

Your Commissioner would request that the Treasurer pay the said amount ($153) on the Commissioner's order, when the contract is completed to his satisfaction.

To the Warden and Council of the County of Peel:

Your Committee beg leave to report that they met the County Warden and Commissioners of the County of York, on April 3rd, and unanimously agreed that a bridge was absolutely required there.

First Report of the Commissioner on County Bridges for Toronto Township.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Commissioner was notified of a washout at the county bridge at Churchville. Your Commissioner went to Churchville and had a temporary crossing made. I then notified Mr. Lyons, Commissioner for Chinguacousy, to meet me at Churchville and let the contract for filling in the washout. We met, and the contract was let to Mr. A. S. Lamb for the amount of tender, besides the price of the timber that was required.

We recommend that Mr. Lamb be paid for said contract and the price of the timber so soon as Mr. Lyons and your Commissioner report the same as completed according to contract.

It also appears that some stone is required to protect said work, and would advise hat your Commissioners be instructed to have said stone placed there.

Your Commissioner also begs to report having, in conjunction with the Commissioner for Etobicoke, let the cutting down of a hill near Craig's Bridge at 25 cts. per yard to the amount of $100—$50 of which the County of Peel have agreed to pay when the name of the contractor is given to the council; and would recommend payment so soon as the cutting is complete.

To the Warden and Council of the County of Peel:

Your Committee ask leave to report as follows:

That we have examined the By-laws passed from time to time by this Council, and find that in the year 1880 all By-laws then in force were consolidated and embodied in one By-law, which was numbered 142; and whereas by so doing the original numbers of these By-laws were no longer retained; that the said By-law No. 142 was divided into eleven chapters, dealing with the several matters referred to in the original By-laws; that since the said revision all alterations or amendments made have been made to and referred to as chapter and section of 142, which has reference to the matter dealt with.

Your Committee have prepared a copy of the original consolidated By-law No. 142 as amended up to this date, and also a copy of all unrepealed and unexpired By-laws passed by this Council since the date of such consolidation.

Your committee would therefore recommend that By-law No. 142, including amendments thereto to date, be printed with the Minutes and By-laws of this year, and that original By-laws now in force, passed since the passing of said By-law No. 142, be also published, retaining their original numbers.

Your Committee would also recommend that Rule 32 of this Council be amended by adding after the word "for," in the first line, "a grant of money."

First Report of Special Committee on House of Industry.

To the Council of the County of Peel :

GENTLEMEN,—

Your Committee beg to report that they have had two meetings and given a great deal of attention to the matter, especially in reference to site, as you are no doubt aware they asked, through the press, for options on properties suitable for a Home or House of Industry, said grounds to contain not less than 50 acres. We have received some fifteen of such options, prices ranging from $35 to $110 per acre, with 50 to 100 acres in each.

Your Committee have made a personal inspection of the greater number of such properties; visited some of them twice, and while a difference of opinion (as you would naturally expect) exists among your Committee as to the property most suitable, they have unanimously come to the conclusion that those sites most suitable, both as regards location and quality of soil, are the following :

That of John Crawford, 50 acres at $65 per acre, situated in the 2nd concession east, and part of lot 7 ; soil, a nice light loam with some sand or gravel on the rear, and a never failing stream rising on the property.

That of Mr. John Troughton, 50 acres for $5,500. This is a fine piece of farm land ; light, loamy soil, and apparently in a good state of cultivation. On this property there is a large brick farm house with ordinary farm outbuildings.

Also the property of Mr. R. Wilson, containing 100 acres, situated within the municipality of Brampton, a good No. 1 farm with large brick dwelling and farm outbuildings, with water very convenient.

There is also a 50 acre lot offered by Mrs. Nixon, being the west corner of lot 5, second line east, rather flat but fairly good soil. There is no buildings on this property. Price asked, $70 per acre.

Your Committee recommend that this Council proceed to secure land, said land and buildings not to exceed the sum of $9,000. and that the following be a committee to investigate and report on the most suitable site of 50 acres of land for a Home, viz. :—Committee to be composed of Messrs. Lightheart, Anderson, and Sir M. Parker ; said Committee to report at the November Session of this Council, and that they procure all information possible in the matter.

Your Committee beg also to submit for your inspection a sketch of Home or House of Industry kindly given your Committee by Messrs. Strickland & Symons, architects, of Toronto, for the purpose of aiding us in arriving at an opinion as to what would meet the requirements of the County.

All of which is respectfully submitted.

MEMORIAL.

To the Honorable the Senate and the House of Commons of Canada:

The petition of the County Council of the County of Peel humbly sheweth:

That a great grievance, which vitally affects the well-being of the entire community exists with reference to the rights of Municipalities to construct or repair drainage works through railways. It is a well-known fact that it frequently costs more to construct a drain through or across a railway than it does to construct the whole balance of the drain, and it is also a grievance that Municipalities are compelled to appeal to

the Railway Committee of the Privy Council in case objection is made by the railway company to permitting the drain to cross the railway track.

Your petitioners would therefore pray that railway companies, even those declared to be for the benefit of the Dominion, be placed on the same level with other properties of lands, under the Drainage Act of Ontario, with due provisions to safeguard the interests of companies with reference to the obstruction of traffic, etc.

The public are also inconvenienced to a very great degree by the refusal or delay of railway companies to make crossings for highways and streets over railways, cases having occurred where Municipalities, after years of correspondence, were informed by railway companies that road or street crossing would only be made on condition of the Corporation of the Municipality paying the entire expense of constructing the crossings, and signing bonds becoming responsible for all losses or damage occurring at these crossings for all time to come.

Your petitioners would therefore pray your honorable bodies to pass such legislation as would compel railway companies to make suitable crossings at their own expense, without undue delay, for all roads and streets crossing their respective railway tracks.

Your petitioners would also remind your honorable bodies that very great difficulty exists in the way of farmers getting farm crossings. Cases have occurred where farmers whose lands were divided by railways only obtained crossings after years of waiting and on signing bonds of indemnity to the company, and in many cases crossings have been refused altogether.

Your petitioners would therefore pray your honorable body to pass legislation which will compel railway companies to provide suitable crossings in all cases where farm lands are divided by railways.

And your petitioners, as in duty bound, will ever pray.

Treasurer's Statement of County Accounts.

TREASURER'S OFFICE, COUNTY OF PEEL,
BRAMPTON, Jan. 26, 1897.

To the Warden and Council of the County of Peel.

GENTLEMEN,—

I beg leave to report that the County Accounts for the year ending the 31st of Dec., 1896, are prepared in detail and ready for audit.

I have also prepared the accounts in duplicate, as the Government demands a detailed statement of receipts and expenditures from the Auditors, and will not wait until Minutes are printed, but would prefer a printed copy, which we cannot furnish unless we have the accounts printed quarterly. Some counties have adopted the plan of having the Quarterly Statements printed every quarter, and I think this plan commends itself to the attention of your Council.

The receipts from all sources, not including School Monies, during the year amounted to $30161.39 and the expenditure to $28824.58, leaving a balance of $1336.81 to carry forward.

You will observe by the general statement of Assets and Liabilities on the 31st of Dec. that while we had a balance to carry forward of $1 336.81, our outstanding debts at that date were $1611.04, which were passed by the auditors on Jan. 8, and have since been paid by your Treasurer. Your Council is also indebted for half cost of new iron bridge known as the Orth bridge, for which I have not to this date received any account.

ROBERT CRAWFORD,

COUNTY TREASURER OF PEEL.

Auditors' Report for the County of Peel for 1896.

BRAMPTON, JANUARY 29th, 1897.

To the Warden and Council of the County of Peel:

GENTLEMEN:—

Your Auditors beg to report that they have carefully examined the books, vouchers and accounts of your Treasurer, Robert Crawford, Esq., and find each amount correspondingly correct, and have duly verified the same.

We find a balance on hand, and deposited to your credit in the Dominion Bank here, in the sum of thirteen hundred and thirty-seven ($1337) dollars, on the 31st day of December, 1896, which the Bank Manager duly certified to.

We beg leave to congratulate your County on having such a careful, painstaking, obliging and efficient Treasurer as you have in Robert Crawford; and in looking into the salary account we think the remuneration of six hundred ($600) dollars per annum, with the work done and responsibility attached thereto, is by no means excessive, but quite the reverse.

In conclusion, your Auditors respectfully thank Mr. Crawford for his willingness in furnishing them every information required.

Respectfully submitted.

J. W. BEATTIE, }
R. G. BROWN, } AUDITORS.

Adopted this 29th day of January, 1897.

JOHN GRAYDON, WARDEN.

REPORTS OF COMMITTEES.

Report of Special Committee Appointed to Ascertain and Recommend a Site for County House of Refuge.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your Committee beg leave to present the Report of Special Committee on House of Industry for this county.

1st. Your committee have had under consideration several properties, tenders of same being before your committee, and after careful consideration we beg to report that we recommend the purchase of 50 acres known as the "Troughton property," for $110.00 per acre, situated on the west side of the Centre Road, being the Northeast half of the East half of Lot number 9, in the 1st Con. West, there being on this lot a large Brick House and other outbuildings.

2nd. Your committee have had this house inspected by the Inspector of Industrial Houses, &c., who has recommended the property under consideration as being a very suitable place for House of Refuge, with the addition of a wing to be built on either the east or south side of present buildings. We append a copy of Report as received by your committee from Inspector.

3rd. We would also recommend that proper plans and specifications be prepared and submitted to the Government Department for approval before proceeding with the work.

4th. We would further recommend that this council take the necessary

steps to raise a sufficient sum of money to carry out and complete the purchase of the property and make all of the necessary improvements.

All of which is respectfully submitted.

G. R. ANDERSON, Chairman of Com.

Council Chamber, Brampton, Nov. 16th 1897.

(COPY.)

RE. COUNTY OF PEEL POOR HOUSE.

18th Oct., 1897.

I beg to inform you that, as per request, I visited the Farm near Brampton which the county proposes to purchase for an Industrial Home.

I found the land of good quality, and the buildings, with a reasonable outlay for an addition, would make a very comfortable county home for old people.

I would advise that a wing be added to the building, extending west or south, sufficiently large to give accommodation for the number of inmates that you would probably have to provide for.

I think the locality a good one from a sanitary point of view, and the waterworks are convenient for supplying the building with good water. I would strongly advise that at least 75 acres of land be purchased. You would find it much more economical than with a less quantity, and from the results of this year's crops, I am satisfied that no better quality of land can be got any place.

In event of your purchasing this property, I shall be glad to approve of it, on behalf of the Government, for the purpose of an Industrial Home, and it will then be necessary for you to have a plan prepared of the addition to the building, which you propose to make, and submit the same to this Department for approval before proceeding with the work.

Your Obd't Servant,

(S'd.) T. F. CHAMBERLAIN,
INSPECTOR.

Warden Co. Peel,

Report of Committee Appointed to Build a Bridge Across the Etobicoke, near Malton.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your committee, consisting of the Warden, Sir M. Parker, Thos. D. Norval, and Robert Burton, met a similar committee of the County of York at Toronto, and it was agreed by said joint committee to ask for tenders for building said bridge.

The committee met again at Toronto shortly after and accepted the tender of H. Hamblyn for $347.00. Said joint committee at the same time appointed Sir M. Parker and Mr. Norval to let the approaches of said bridge. They met on the ground, together with the Engineer of the County of York and Mr. Evans, and let the approaches to David Adams for the sum of $169, and $18 for fencing.

The bridge being completed, your committee recommend that the sum of $173.50, being half of said contract, be paid to H. Hamblyn on the certificate of the Engineer, Mr. McDougall, as to its completion according to contract.

They would also recommend that the sum of $84.50 be paid to David Adams so soon as the above Engineer reports the completion of the approaches, it being half the cost, also $9, being half cost of fencing.

Your committee recommend that the committee be paid as follows, and that the Treasurer be authorized to pay :

To the Warden, for 2 days' attendance in Toronto and mileage -	$10 20
To Sir M. Parker, 3 days in Toronto and mileage - - - - -	13 80

Committee Room, 17th Nov., 1897.

Report of Commissioner on County Bridges for the Township of Toronto.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your commissioner, in conjunction with Mr. Norval, attended to the repairs to Forbes' bridge, between the Townships of Chinguacousy and Toronto. On going there they found the bridge in a dangerous state, all the timbers perfectly rotten.

Tenders were asked for, and the job let to A. S. Lamb, he being the lowest tenderer, for the sum of $102.00. They then sold the old timber by auction to the said Lamb for $1.50.

Your commissioner met Mr. Evans, commissioner for the County of York, at " Craig's Hill," where the council had granted $50.00, the County of York granting a similar sum, to cut down said hill. Your commissioner found the work done according to contract, and issued his order on the Treasurer for payment of the same.

Your commissioner having received notice that the contract at Churchville bridge, in conjunction with Mr. Lyons went there and passed the same.

Your commissioner also, with Mr. Norval, let to A. S. Lamb the south-west corner of said bridge for the sum of $30.00, which we recommend the Treasurer be authorized to pay on the certificate of your commissioners when said work is completed.

Your commissioner begs to report that the north end of said bridge, being a portion of the old bridge, is in a very dangerous condition, as all the timbers are entirely rotten, and would recommend that the space occupied by the old bridge be filled in, and that tenders be asked for the same, and that your Commissioner, the Warden, Mr. Lyons, and Mr. Norval, do attend to the same immediately.

Your commissioner also received notice from the County of York that the approaches of the bridge at Burnhamthorpe were in a very bad state of repair. He then met the commissioner from the County of York and let the job of repairing the same to Mr. T. Jones for the sum of $11.50.

Your commissioner also received notice that the bridge crossing the Etobicoke River at Watson's was in a bad state. I went there and met the commissioner from York, Mr. Evans, and let the job of certain drainage and

guard fencing to Mr. Charles McGilham for the sum of $26.00, the drain and ditches to Thomas McGilham for $17.50.

Your commissioner also received notice that the covering of the iron bridge over the Etobicoke River on the Lake Shore Road was in a dangerous condition. He met commissioners of the County of York, and they jointly decided to put a covering over said bridge of oak plank two inches thick. They made every inquiry as to price of said plank, and accepted an offer from A. S. Lamb to supply said plank at $20.00 per thousand delivered at the bridge, the Engineer of the County of York to inspect the same as to quality, &c., &c.; and would recommend that one-half of the cost of the said plank and laying the same be paid by the Treasurer, on the certificate of the Engineer, so soon as work is completed. We also recommend payment to the Messrs. McGilham when work is completed.

All of which is respectfully submitted.

M. PARKER, Commissioner.

18th Nov., 1897. Adopted.

JOHN GRAYDON, WARDEN.

First Report of Commissioner on County Bridges for the Village of Streetsville.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

Your commissioner begs to report that after consultation with Sir M. Parker, commissioner for the Township of Toronto, I have had the wing wall and a portion of the abutment on the east end of the Caslor bridge rebuilt. I found that there had been no proper foundation, which defect led to the failure of said wall.

It was the opinion of some of the committee when the bridge was being erected that this portion of the stone work should be rebuilt, but the Engineer thought it would last for some years. This cost some $57.00, something more than your commissioner had anticipated, on account of having had to put in a proper foundation.

I also had some slight repairs made to the Mullet Creek and Streetsville bridges, the accounts for which have been presented to the Finance Committee.

All of which is respectfully submitted.

To the Warden and Council of the County of Peel:

GENTLEMEN :

I beg leave to report that, in accordance with the resolution of this Council, I have, on behalf of the Council, entered into an agreement to purchase the 50 acres known as the "Troughton property" for the purpose of a Home or House of Refuge for the County.

I may also state that I asked Mr. Troughton to give this council an option on 25 acres more land at the price of $65.00 per acre, the price which he had named, and which he said he would take for any further land which this council might see fit to purchase. This he positively refused to do.

Our Solicitor has assured me that the documents are all in proper shape, signed and bond registered.

I may also state that the arrangement is to pay $2,000 on or about the 15th day of March, the balance one month after the By-law to borrow the money has matured.

I may further state that the last $1,000 of Miss Porter's bequest is now ready in cash, and will in a day or two be placed to our credit in the Bank.

All of which is respectfully submitted.

JOHN GRAYDON.

Report of the Commissioner for the County of Peel for Toronto Township.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

At the request of the Warden of the County of York, your commissioner attended at Summerville, on April 7th, to inspect the bridge there, as great complaints have been made as to its being unsafe. The County of York engineer was there, together with the Commissioners of County Property of County of York.

After thoroughly inspecting the same we condemned it as being rotten, and it was decided to build a new steel bridge there, subject to the approval of the County of Peel.

I was instructed to have the bridge propped by having four posts put under the ends of the cords. This I had done by a Mr. O'Brien for the sum

of $8, which the County of York paid. I would recommend that the County pay to the County of York $4, being half of said amount. I would also recommend that the Warden, myself and Mr. Graydon be appointed commissioners to meet three commissioners to be appointed by the County of York, with power to let a contract for the building of a new steel bridge at that point, and to attend to any other matter appertaining to the same.

Your commissioner having heard that there was a washout at Craig's Bridge, met Mr. Evans of County of York there, and let the filling in to a Mr. Gillman for the sum of $8, half of which sum I recommend that the Treasurer be authorized to pay to Mr. Gillman as soon as I report the work completed.

Your commissioner also met Mr. Lyons, Mr. Graydon and Mr. Norval, in accordance with a report of the County appointing to let a job of filling in the end of a bridge at Churchville. On viewing the premises we decided to ask for tenders for the same, and also to see the best mode of raising the south end of the bridge which was in a very bad state of repair. We employed Mr. McDougal, Engineer of the County of York, to make a report as to the best mode of securing south end This report has not yet been received.

We opened the tenders for filling the north end of the bridge on the 5th of April. The tenders were as follows :—

A. S. Lamb, $382.50 ; C. Letty, $170 ; Edgar Letty, $157 ; D. J. McClure, $135. We gave the contract to Mr. McClure for $135. On the fourth day of June, Mr. Graydon, myself and Mr. Lyons inspected the same and found it done according to contract, and would recommend the payment of the same, together with $5 for gravelling said road.

I further recommend that David McClure be paid $12 for repairing and keeping the road passable on the south end of the Churchville bridge.

All of which is respectfully submitted.

First Report of Commissioners of County Property re. House of Refuge.

To the Council of the Corporation of the County of Peel :

GENTLEMEN,—

Your commissioners have very much pleasure indeed in submitting for your adoption the first report on the House of Refuge, at present in process of completion, and are pleased to state that the work therein is progressing favorably.

1st. The attention of your committee was attracted to the expediency of working the Industrial Farm during the time the House was under construction, in order to receive a revenue therefrom. After considering the most feasible method of working the farm, we concluded to let the spring work separately. We therefore advertised for tenders for ploughing, cultivating, sowing, harrowing, rolling and ditching, 15 acres of oats and 8 acres of peas. We received some two or three tenders for doing said work, and finally accepted the tender of Mr. James Harvey for the sum of $15.00, as per agreement, duly signed. As the work has been done in accordance with the agreement, your commissioners would recommend the payment of said amount ; also the sum of $6, as per order, for fencing.

2nd. For the better protection of the farm, we found it absolutely necessary to have 66½ rods of fencing done thereon. We, in consequence thereof, advertised for tenders for the erection of the same, to which there was a generous respond. After a careful examination of the different styles of fence, we accepted the tender of Mr. Samuel Hunter at 80c. per rod. In fairness to all those who tendered for the erection of said fence, your commissioners will doubtless be pardoned in stating that the styles of fence as shown to us were all up to date, and we had considerable difficulty in making a choice. As the above fence is now about completed, your commissioners would recommend that, on the order of Mr. Norval, the amount of contract be paid.

3rd. We also advertised for tenders for the purchase of $8,000.00 Debentures, re. the House of Refuge, and received a considerable number from different monetary institutions in Toronto and Brampton. After mature consideration of the various tenders before us, your commissioners accepted the tender of the Dominion Bank, Brampton, which the following will show :

Resolved : That the tender of Mr. M. E. Holden, Manager of Dominion Bank, Brampton, re. the purchase of $8,000.00 in Debentures, for the erection

of a House of Refuge, at 3⅞ per cent. be and the same is hereby accepted. And, further, that the said Debentures be deposited in said Bank by 1st May, 1898; also, that the County receive at the rate of 3 per cent. on all monthly balances.

4th. By order of the Architect, and for protection of the contractors while working on their different contracts, as well as in the interests of the county, your commissioners were obliged to have the House of Refuge insured while under construction. We consequently placed the sum of $5,000 insurance on said building in the Economical Fire Insurance Co., Berlin, for the period of six months, at a cost of $45.00, said Company being represented by Mr. L. D. Sanderson as agent. Also, John Cooney, for insurance on outbuildings, $3.24.

5th. Your commissioners also ordered the payment of $200 to Messrs. Strickland, Seymour & Co., for services rendered by them in connection with the supervision of the Home, said amount being part payment thereof.

All of which is respectfully submitted.

Brampton, April 25th, 1898.

G. R. ANDERSON, ESQ.,
BRAMPTON, Ont.

DEAR SIR :—

Re. water for House of Refuge, enclosed find copy of part of Report you asked me for.

I understood the Council adopted this part of the Report understanding that the maintaining of the House of Refuge as a County institution meant that the Town of Brampton would not be charged for indigents sent from the Town other than its proportion of the general assessment necessary to maintain it.

And, I might say further, it was expected there was nothing binding other than to show your Council what the Town was ready to do, and that an agreement on these lines would be come to and put in writing and entered into by both parties.

"10th. That the Committee recommend that water be given to the County of Peel House of Refuge conditional, upon the condition of the House of Refuge placing the water therein at their own expense and doing no damage to the waterworks system of Brampton, and fully indemnifying the Town against any loss ; and, further, upon the condition that the House of Refuge be maintained as a County institution, and that all work be done under the supervision of the Waterworks Committee."

The above is a true copy of the 10th paragraph of the 1st Report of the Waterworks Committee of the Town of Brampton for the year 1898, and adopted by the Brampton Town Council on the 4th April, A. D., 1898.

MEMORIALS.

To the Honorable the Legislature for the Province of Ontario, in Parliament assembled :

The Memorial of the Council of the County of Peel, in Council assembled, humbly sheweth :

Whereas, in the opinion of your memorialists, there is a grievance under the present Criminal Law, which is indeed unsatisfactory, at least in so far as relates to the County of Peel.

Although unique in the history of the county, a case in point came under the observance of your memorialists at the December Session of 1897, in which some parties were sent from the County of Dufferin to this County for trial for alleged perjury, and cost the County of Peel about $700.00 for fees of jurors, sheriff, constables, etc. As a matter of fact, the County of Dufferin had to pay its share of the witness fees, but the ratepayers of Peel are naturally dissatisfied over having to pay for the trial of Dufferin County criminals. In order to prevent a repetition of the same, and that future injustice will be prevented, your memorialists would ask your honorable body to so amend the Criminal Act, that when the venue is changed in a criminal case, the county in which the alleged crime was committed shall bear all the cost of the trial and prosecution in the county to which the case may be transferred.

Your memorialists would therefore ask your honorable body to pass such legislation as will redress the hardship complained of in the subject matter of this Memorial.

And your memorialists, as in duty bound, will ever pray.

Council Chamber, Brampton, 10th June, 1898.

To His Excellency the Governor-General of the Dominion of Canada, and The Honorable The House of Commons in Parliament assembled :

The Petition of the Council of the Corporation of the County of Peel assembled, humbly sheweth :

That your Petitioners believe that an efficient Active Militia force is indispensable to the maintenance of law and order in and for the defence of the Dominion of Canada

And whereas we believe that the best available men should be secured and the Active Militia force made as efficient as possible.

And whereas the Active Militia do continual service in deterring those who would, but for the existence of an organized military force, be disturbers of the peace, the Militia being liable to be called upon at any time, and many battalions doing further service for which they receive no pay by drilling during the winter months and for several weeks previous to going to camp.

And whereas the force is invariably called out for annual drill at seasons of the year when all good men are profitably employed at home.

And whereas, as many of the officers of battalions have applied to, and obtained supplementary appropriations of 25c. to 50c. per day per man, from their respective corporations, to enable them to secure a better class and a full complement of men for the service.

And whereas we, your petitioners, feel that it should not be necessary for officers of battalions to get assistance for municipalities, and further, that it is inconsistent for municipalities to grant direct aid for the purpose of maintaining federal troops which are employed by the government, responsible to the government, controlled by the government, and liable for active service in any part of the Dominion.

Therefore, your petitioners would most humbly submit that to secure and maintain an efficient military force it is most important and essential that additional aid be granted by your Honorable House for that purpose, and that such additional aid be distributed among the non-commissioned officers and men to the amount of say 25c. per day per man for increased pay during annual drill.

And your petitioners, as in duty bound, will ever pray.

D. KIRKWOOD, Clerk.

Council Chamber, Brampton, 10th June, 1898.

To the Honorable David Mills, Minister of Justice; and to the Senate and House of Commons of Canada.

The petition of the Municipal Council of the County of Peel, in the Province of Ontario, humbly sheweth:

Whereas in the majority of counties in the Province of Ontario there are no homes for the indigent, aged, and infirm population, other than the County Jails, in which such people usually spend the remainder of their days, after being committed under the Vagrancy Sections of the Criminal Code of 1892.

And whereas such persons must be re-committed every six months, thereby entailing unnecessary indignity to the unfortunate poor, and unnecessary cost to the counties.

And whereas your petitioners are of the opinion that such persons as aforesaid being once committed should so stand committed during the pleasure of the Judge and Warden of the county, provided that they might be released or discharged on application therefor duly made by themselves or their friends, in proper cases.

And whereas your petitioners are further of the opinion that the fees allowed Constables under the present tariff in such cases are excessive.

Therefore, your petitioners humbly pray that at the next session of Parliament such amendments may be made to the Criminal Code as shall give effect to the opinions herein expressed.

And your petitioners, as in duty bound, will ever pray.

Treasurer's Statement of County Accounts.

TREASURER'S OFFICE, COUNTY OF PEEL,
JANUARY 25, 1898.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

I beg leave to report that County Accounts for the year ending the 31st of December, 1897, are prepared in detail and ready for audit.

The receipts from all sources, not including School Monies, during the year amounted to $34562.08, and the expenditure to $29687.65, leaving a balance of $4874.43 to carry forward.

You will observe by the General Statement of Assets and Liabilities on the 31st of December, that while we had a balance to carry forward of $4874.43, our outstanding debts at that date were about $1500, which were passed by the Auditors on January 5th, and have since been paid by your Treasurer.

Your Council is also indebted for half cost of new bridge between York and Peel, for which I have as yet received no account. A portion of the legacy re. Jane Porter to the House of Refuge, amounting to $2952.13, is also included in the balance shown.

ROBERT CRAWFORD,
COUNTY TREASURER.

Dec., Paid Trustees' and Teachers' P.S. Leaving Grants	175 00
Jan. 1, 1898, Balance on hand	31 26

In conclusion, I would say that there is no indebtedness to any municipality for school purposes. The balance of $31.26 to the credit of P.S. account is accumulated interest during the last two years, which, I think, should be placed in the general fund, as we receive no interest on any of our deposits.

REPORTS

—OF—

COMMITTEES.

Report of Commissioners on County Bridges for the Township of Toronto.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

On July 4th your Committee attended with Mr. Graydon at Summerville to inspect the old bridge, on July 5th went to Toronto with Mr. Graydon to meet the Commissioner of Co. York, when it was agreed to ask for tenders to build a steel bridge, and one riverstone abutment.

I was appointed with Mr. Evans and Engineer of the Co. of York to see that a proper road was constructed for the public use during the construction of bridge, and also to sell the old bridge, which was sold for the sum of $37 to Mr. Cullen.

I also attended with Mr. Graydon and Mr. Scott in Toronto to open the tenders.

The tenders for the steel structure was let to the Cleveland Bridge Co. for the sum of about $1100 and the stone abutment to Mr. Congdon of Streetsville for the sum of —— per square yard, the contract in both cases being the lowest tenders.

I may report that the abutments are ready to receive the bridge, and the engineer reports that the bridge will be ready for traffic in a short time.

I also attended at Craig's with a Commissioner from Co. York to have guard rails placed at each end of the bridge, as it was very dangerous for travelers. The contract was let to Mr. Thompson for $27.25.

On September 15th I attended with Mr. Graydon at Churchville to let the job of raising the southern end of the county bridge there. The job was let to Mr. A. S. Lamb who was to drive spiles and make other repairs under the supervision of Mr. Graydon.

The contract of the bridge and abutments at Sumerville and all other expenses connected therewith will be chargeable half to the County of York and half to the County of Peel, also the guard railing at Craig's bridge.

The sale of the old bridge at Summerville is credited half to Co. York and half to Co. Peel, in the meantime the County of York have agreed to pay the contractor until completed.

All of which is respectfully submitted.

Report of Commissioner on County Bridges for the Township of Toronto.

To the Warden and Council of the County of Peel.

GENTLEMEN,—

Since the last meeting of this Council I met the Commissioners from the County of York at Summerville Bridge and together we let the ap-

proaches on both sides of said bridge to Wm. O'Brien for the sum of $50.00, which said sum has since been paid by the County of York.

I also instructed Patrick McCarty to fill in a portion of the road leading round said bridge, and recommend that he be paid the sum of $1.50, half of which will be repaid by the County of York.

I also recommend payment of the following commission for attendance at the above bridge, viz:

J. T. Scott, 1 day and mileage	$ 6 00
John Graydon, 1 day and mileage	4 10

W. S. Crawford, 1 day on county line with Simcoe	3 50

Your Commissioner also begs leave to report that he had considerable difficulty in keeping the road around the bridge in passable order.

Your Commissioner met Mr. Evans, Commissioner from the County York, and found it absolutely necessary to build a temporary bridge over the river at the said bridge, and improve the road accordingly. The County of York having paid the full amount.

There have been some small accidents at the bridge, and some of these claims are now in the hands of your Commissioner for settlement.

There is one small account of Wm. J. Hebden for a new tongue, ironing same and other repairs to waggon amounting to $2.75, which we recommend to be paid.

Also to J. J. Stewart for damages from upsetting a load of hay, and injuries to his rig at the Summerville Bridge, amounting to $5.00, which I also recommend to be paid, half of which accounts are chargeable to the County of York.

All of which is respectfully submitted.

GENTLEMEN,—

I beg to report that certain repairs required at the Churchville bridge have not been done, as Mr. Lamb has been so busy up to the present, and I am of the opinion that it cannot be so cheaply done until the river is

frozen over, when it will be possible to do it, as it will be necessary to have such repairs made before the Spring freshets.

House of Refuge, Brampton.

Dear Sir,

There is a matter in connection with Mr. Hill's account that I should like you to bring to the notice of your Committee.

Ordinary face brick was specified for the new wing, and Mr. Hill was compelled to use pressed brick on account of the kiln running out of common brick. This has put him to an extra expense of $40., and I would suggest and recommend that this amount be allowed to him as the building is much better for the change and the money is well spent.

Yours truly,

W. SYMONS.

Second Report of Commissioners on County Property re House of Refuge.

To the Council of the Corporation of the County of Peel.

GENTLEMEN,—

Your Commissioners on County Property for the year A. D. 1898, desire to present their final report re House of Refuge.

Some may think that we have gone beyond our functions in presenting this report, and as a matter of fact it is somewhat unique in the history of Peel County Council, but as business of an unusual and important character was submitted to your Commissioners for consideration in con-

sequence of the building of House of Refuge, and also to raise money for current expenses, we consider it a duty we owe to the ratepayers as well as a matter of courtesy to the present Council to report what we have done since last meeting of Council for 1898.

1. On Dec. 31st your Commissioners, by order of the Treasurer, had, in order to meet obligations re the House of Refuge debt, to authorize the Warden and Treasurer to borrow a sum of money not to exceed four thousand dollars, ($4,000.00), said sum to be paid back to the bank as soon as the County Treasurer receives the Government grant of a similar amount, which we anticipate will be handed over to the County Treasurer ere long. This, however, is not an additional debt unnecessarily incurred, but simply an accommodation for the present, as we could not force the Government to pay said grant until they were fully satisfied that we complied with all the requirements by statute necessary re the House of Refuge.

2. Your Commissioners also had in consequence of unforseen expenditure at their last regular meeting which was held on Jan. 7th, 1899, to authorize the Warden and Treasurer to borrow from the Dominion Bank, Brampton, the sum of $2,000.00 to meet current expenses. While it is not imperative, the Council of 1899 can, if they desire, by Resolution or By-Law, ratify the same. We think, however, that it is not at all necessary, as said power is relegated to Commissioners on County Property by By-law, and hence was done according to law and to expedite business.

3. Inspector Jackson of the House of Refuge appeared before your Commissioners and verbally reported as to his duties, and found on examination of said House that the rules and regulations were duly enforced. We recommend the purchase of supplies for the House, such as coal, beef, weigh scales and shirts for inmates. Your Commissioners instructed the Inspector and Mr. Norval to purchase whatever supplies were necessary until Council meet.

Your Commissioners feel that it would be base ingratitude on our part as representatives of the County of Peel, if at this juncture we declined to remember the estimable and charitable lady, Miss Jane Porter, now deceased, who bequeathed to this county the handsome sum of $4,000 to be applied to the building of a House of Refuge therein, and which is now erected and completed, the doors of said Institution being open to the unfortunate of all creeds and nationalities, and that the Warden and Commissioners on County Property be authorized to purchase and place in the House of Refuge a suitable memorial, tablet or picture, whatever in their opinion is most suitable, not to exceed the sum of fifteen dollars.

All of which is respectfully submitted.

Report of Dr. C. Y. Moore.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

I have visited the House of Refuge regularly since it was opened and have attended to all cases of sickness which required treatment. As there have been no books for the purpose I have kept no record except memoranda, which may be transferred to the proper book when provided, if thought necessary.

Mr. and Mrs. Johnston are kind as well as firm in their dealings with the inmates, most of whom are gradually becoming attached to the institution and thankful for the comforts which it brings within their reach.

As all the inmates are more or less aged and firm and many of them practically sent to the House for the care usually given in a hospital the duties of the matron have been very exacting and laborious.

Some help to be utilized in nursing as well as in the ordinary household work is an urgent necessity, and it will be impossible to continue much longer without it.

Hoping to be able to give a fuller report at a future meeting I have the honor to be

Your Obedient Servant,

Report of Sir M. Parker, Commissioner on County Bridges for Toronto Township.

The Final Report on Summerville Bridge.

On Dec. 16th Mr. Graydon met at Summerville Bridge the Commissioners from the County of York to inspect the abutments and filling-in of approaches and estimate the damage done by reason of the contractors not being up to time.

On Dec. 23rd, 1898, on notice from the County of York, your Commissioners, Sir M. Parker, Mr. Graydon and Mr. Reuben Lightheart, met the Commissioner from the County of York, and finally passed the abutments, which, after deducting several amounts for damages, was ordered to be paid by the County of York.

On Jan. 9th, 1899, on notice from the County of York, Sir M. Parker and Mr. Graydon met the Commissioners from the County of York and finally passed the bridge and abutments, the whole amount being some $2581.92, which will be divided equally between York and Peel.

The amount of damages, the building of the temporary bridge, the roadway and rebate of time by non-fulfilment of contract on terms specified therein, in all, some $200, was charged against the contractors, for the particulars of which I refer you to the Clerk of the County of York.

I recommend payment to the Commissioners as follows:—John Graydon, 1 day at Summerville and mileage, $4.30, and 2 days at Toronto and mileage, $10.40; Reuben S. Lightheart, 1 day at Toronto and mileage, $5.10; Sir M. Parker, 2 days at Toronto and mileage, $9.20.

First Report of the Inspector of the Industrial Farm and House of Refuge.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

In accordance with the provisions of the By-law governing the Industrial Farm and House of Refuge, I beg to submit my first report as Inspector for the last two months of the year ending Dec. 31st, 1898.

1. On December. 31st last there were 12 inmates in the House of Industry, namely, 10 adult males and 2 adult females. The number coming from the different municipalities are as follows: Chinguacousy, 5; Caledon, 5; Albion, 1, and the town of Brampton, 1.

2. The amount of personal property on hand is not worth taking down. The value of produce on hand on Dec. 31st was 13 acres of oats, 45 bush. per acre, total 585; 8 acres of pease, 15 bush. per acre, 120 bush.; wheat, 3½ acres, 15 bush. per acre, 52 bush.; hay, 32 tons at $4.50 per ton. Total value of produce on hand Dec. 31st would be $352.70.

3. I would suggest that the Council procure suitable clothing for the inmates

4. I would call your attention to the condition of the basement. There appears to be something defective in the drainage, as there is con-

siderable water in several of the rooms and also at the front of furnace.

5. I also find the caretaker and matron to be very efficient and careful about the inmates.

All of which is respectfully submitted.

Treasurer's Statement of County Accounts.

TREASURER'S OFFICE, COUNTY OF PEEL,
BRAMPTON, JAN. 24, 1899.

To the Warden and Council of the County of Peel.

GENTLEMEN,—

I beg leave to report that the county accounts for the year ending Dec. 31st, 1898 are prepared in detail and ready for audit.

The receipts from all sources (not including school moneys) during the year amounted to $56,178.17 and the expenditure to $56098.20, leaving a balance of $79.97 to carry forward.

You will observe that the balance to begin the year 1899 is very small as compared with the balance last year of $4874.43. This reduction in balance is due to extra cost of House of Refuge over debentures and grants for that purpose, and also to the fact that we have not received the government grant, and had to borrow $4000 on Dec. 31st to retire debentures and meet current expenses, as may be seen by the general statement.

In conclusion, I would say that it will be necessary for the council to make provision for borrowing about $8000 to carry us over to the June session. We are indebted to the Dominion Bank at this date $6000, but expect to retire one note of $4000 in March by the government grant to House of Refuge. We are also indebted to the County of York for half cost of the Summerville bridge, and to the High Schools the usual grants when arranged by your Council.

I am your obedient servant,

ROBERT CRAWFORD, Co. TREASURER.

AUDITORS' REPORT.

To the Warden and Council of the County of Peel.

GENTLEMEN,—

Your auditors beg leave to report that they have carefully examined the books and accounts of your Treasurer and compared them with the vouchers and find them correct.

We also find that with respect to the non-resident tax there is a balance in the Treasurer's hands of $9.40 in favor of the township of Caledon. The other accounts all balance.

We find that the books of the Treasurer are very neatly kept and a credit to him, the balance on hand and deposited to your credit in the Dominion Bank on the 31st December, 1898, being seventy-nine dollars and nnety-seven cents.

Your Committee would recommend that the financial reports of the county be printed each year immediately after being audited, thereby saving the officials considerable unnecessary labor in preparing reports that have to be forwarded to the Government as required by law.

All of which is respectfully submitted.

WM. KERSEY,
D. C. McKINNON, } AUDITORS.

REPORTS

—OF—

COMMITTEES.

Report of the Commissioner for Streetsville and Toronto Township.

To the Warden and Council of the County of Peel:

GENTLEMEN—

1. Your Commissioner having heard that the Churchville bridge was in a very unsafe condition and likely to be carried away by the spring freshet if not attended to, I notified Mr. Lyons and we met on the fifteenth day of February and let the job of repairing to Mr. A. S. Lamb for the sum of fifteen dollars, ($15) which sum I recommend the Treasurer be authorized to pay Mr. Lamb.

2. Your Commissioner having heard that there was a washout at Churchville bridge went and found it as represented and let the contract of a temporary bridge, also filling approach on north side of bridge to D. J. McClure for the sum of sixteen dollars, ($16.00) the material of temporary bridge to be his when the bridge proper is repaired.

3. Your Commissioner having received notice from Mr. W. R. Wright that the approach to the new steel bridge at Summerville was in a very bad state of repair, I visited it and found it had been temporally fixed by order of Mr. J.D. Evans, Commissioner for the county York. I also found on inspection that the south end of the bridge needed a great deal of filling in and let the job of filling with broken stone to Mr. Goodison for the sum of $20 but I understand there has been nothing done yet. I recommend that the Treasurer be authorized to pay the contractor on the order of your Commissioner, when the job is completed.

4. Your Commissioner having received notice from Mr. W. R. Wright that the approach and hill on each side of Craig's bridge between the old and new survey was in a bad state of repair, I met Mr. Evans, Commissioner for county York, and we let the job of filling and grading to Mr. John Cook, for the sum of twenty-five dollars, ($25.00) which I recommend the Treasurer be authorized to pay Mr. Cook, one half of the amount to be paid by the county of York, viz., $12.50.

5. I also report having inspected the Mullet Creek bridge between Streetsville and Toronto township and found it to be in an unsafe condition and would recommend a new bridge, and that the Warden, Mr. Lyons and myself be a committee to attend to the same.

All of which is respectfully submitted.

Adopted, T. D. NORVAL, Warden.

Brampton, June 6th, 1899.

Report of Special Committee.

Council Chamber, Brampton, June 6th, 1899.

To the Warden and Council of the County of Peel.

GENTLEMEN,—Your Committee, which was appointed by resolution at the January session of this Council to enquire into and regulate the salaries of the County officials,

Beg leave to report as follows :—

1. Your Committee met at the Court House, on Monday, June 5th, and after having obtained what general information they could respecting the duties of the officials and the amount of work to be performed by the different officers, have prepared the following report :—

2. Your Committee find that the work of the jail officials will be very much lightened by the County having a House of Refuge, and would therefore recommehd that the salary of the Jailer (which we think has always been too high for the amount of work performed) be now fixed at $300 per year, payable monthly, and that the salary of the Turnkey be now fixed at $350 per year, payable quarterly, and that the salary of the Matron be fixed at $200 per year, payable quarterly.

3. Your Committee, having considered the case of the Caretaker and Matron of the House of Refuge, agree that the salaries paid are quite inadequate to the amount of work performed, but more especially in respect to the Matron, but cannot recommend any raise in salaries at the present time.

4. Your Committee have also considered the case of the County Treasurer, and we believe the work has increased at least one-third since the erection of the House of Refuge, and we also find that the fees received by the Treasurer for searches and certificates, amounting to about $20.00 a year, which properly belong to him, are used for the running of his office, said Treasurer furnishing all stamps required for use of said office. Your Committee would not recommend any change to be made in Treasurer's salary at present time.

5. Your Committee have also considered the case of the Housekeeper, and cannot recommend any reduction in salary at present, as we think the way the Court House is kept commands the attention of the general public, being unique in every particular; and the grounds are taken care of by Mr. Wm. McConnell and kept in a manner that reflects credit on himself and the County to which they belong.

6. Your Committee have also considered the propriety of any longer paying a salary to a County Constable, as we find that in looking through the minutes that the Constable is paid for work performed, and is therefore not entitled to any salary. We also find that it is not the custom in adjoining counties to pay salary to County Constable. We therefore recommend that the By-law appointing a County Constable be amended by striking out the sum of $200 now paid as salary.

7. Your Committee have also considered the salary question in respect to the County Clerk, and, while we think the amount of work to be performed might be done for less salary, we agree that we have a very efficient officer in our County Clerk, and would therefore recommend that no action be taken in respect to this officer.

8. Your Committee have also looked into the salary paid to the P. S. Inspector for travelling expenses, and do not think $200.00 excessive for that purpose, but would recommend the Council to make such arrangements as will provide for the payment of holding examinations at Bolton and Caledon out of the fees collected from the pup-

ils (less travelling expenses), or else have the fees paid over to the County Treasurer, and the said Treasurer be instructed to pay the examiners according to Statute.

9. Your Committee would also recommend that the Treasurer pay the several members of this Committee the sum of $3.00 each and mileage for services in connection with this report.

All of which is respectfully submitted.

Adopted.

T. D. NORVAL, Warden.

Report of Physician to House of Refuge

To the Warden and Council of the County of Peel

GENTLEMEN:

I submit herewith my first annual report as Physician of the House of Refuge.

My first visit was made on Dec. 15th, 1898, and between that date and May 31st, 1899, I made 36 visits and gave medicine in 136 cases. Some of the inmates were sick when admitted, and as nearly all of them are aged and infirm there has been considerable sickness which required medical treatment. There has been no contagious disease. Two of the inmates have died:

John Loudon, May 7, aged 78, general debility of old age. Geo. Prime, May 22, aged 67, senility and effects of influenza.

The nursing has been done without calling in outside aid, and I have received all possible assistance and been well supported by the keeper and matron of the Institution.

At the time of my appointment I was unaware that for the annual salary of $75.00 I was required not only to give professional services, but also to supply the medicine required.

My experience has shown that the amount paid as salary is barely sufficient to pay for the medicine alone and I respectfully request that you will increase the salary to a reasonable amount or provide a supply of medicine for use in the House.

I am, Your Obedient Servant,

CHAS. Y. MOORE.

Brampton, 6th June, 1899.

First Report of the Commissioner on County Bridges for Toronto Gore.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Having been notified of the County Bridge on the Town Line between Albion and Toronto Gore being in a dangerous condition (known as Shields' Bridge), on examination I found the east wall had fallen in; as there was no time to advertise I went and got two reliable men and let it by the day; they to receive two dollars each per day from the water edge down, and one dollar and fifty cents per day from the water up; they to supply whatever stone was required at seventy-five cents per load.

The work not yet being completed I would recommend payment on the order of your Commissioner when work is done.

Probable cost $25.00

All of which is respectfully submitted.

JAS. CRAVEN, Commissioner.

Brampton, June 7, 1899.

Report of Commissioners on County Property re. House of Refuge.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Commissioners on County Property desire to report business done since the 1st January of present year on House of Refuge and other business pretaining to the County.

In accordance with instructions received at the January Session of the County Council, your commissioners asked for tenders for the erection of a Barn and other outbuildings on the farm in connection with the House of Refuge.

The contract for the stonework of the barn was given to Mr. Hill' who has his part of the work about completed, and the frame work is be

ing constructed by Mr. McMorris, of Orangeville, and we expect to have said work completed in time for haying and harvesting.

We appointed Mr. Jackson, inspector, and to have an oversight of the work during its construction.

We let the tenders for Beef to Mr. Richard Parsons by the quarter or cut for 5 1-2 cents per pound.

Mr. Johnston, caretaker of the House, and your Commissioners, visited the House of Refuge at Newmarket to ascertain how that institution was managed. We were well received by the Warden and Commissioners of the County and most hospitably entertained and also received much valuable information, which we hope will assist us in the management of the Institution and also in the beautifying of the Home and its surroundings, which work we have commenced.

Your Commissioners wish to report the amount expended for the purchase of Stock, Implements and other requirements for farm work and for Furniture for the Home. We beg leave to present said account in detail for your inspection.

On March 11th your Commissioners, by order of the Treasurer, had in order to meet obligations, to authorize the Warden and Treasurer to borrow the sum of $4,000 in addition to the $10,000 already borrowed to meet current expenses in connection with County work.

Your Commissioners also beg leave to report that the Treasurer of the County has received from the Treasurer of the Ontario Legislature the amount of $4,000, that being the sum promised and agreed to under conditions of statute for the erection of the House of Refuge.

All of which is respectfully submitted.

1st Report of Commissioners on County Bridges for the Twp. of Chinguacousy.

To the Warden and Council of the County of Peel.

GENTLEMEN:

I received notice in the month of August that the County bridge at Inglewood was in an unsafe condition. I notified the Commissioner for Caledon (Mr. Davidson), and we examined it and found it as reported.

There was a large washout beside the centre abutment, and the abutment settling into it. The outside abutments were also out of repair and the floor plank worn dangerously thin. We therefore, after duly advertising, let a contract for filling in the washout with stone, taking out the centre abutment entirely and rebuilding, repairing the outer abutment and putting on a new floor. The contractor to furnish all material, except the floor plank.

We let the work by tender, accepting the tender of John Patter-

son, it being the lowest, for the sum of $108. The work being done to our satisfaction, we would recommend payment.

We submit herewith an account from W. C. Thompson for the amount of $47.20, for the floor plank which we recommend to be paid.

We would also recommend that Wm. Smeaton be paid the sum of $2, for temporary repairs to the bridge.

We sold the floor old plank by auction for the sum of $10, and had the money sent to the County Treasurer.

I received a notice from the Road and Bridge Committee of the County of Halton, that they would meet on the 7th October at the iron bridge at Norval, inviting me to meet them. I notified the Warden to be present and we met together.

We found that the water, after going through the bridge, forms a whirlpool, and has washed away a large portion of the bank, and a dry stone wall which was put there for protection to the abutment at the east corner, thus endangering the same.

We therefore, after due consideration, let a contract to Robert Noble to put in a large stone breakwater at the cost of $100.

We also authorized the said Robert Noble to put a quantity of stone at the north end of the west abutment for protection, and to do some repairs to the west approach and also to put a guard rail on the south corner of the race bridge.

As the work is being done now, and not yet completed, I would recommend that the money be paid on the order of your commissioner, when the work is duly performed.

Peel's portion to be one half cost for all the work done. All of which is respectfully submitted.

Adopted.

T. D. NORVAL, Warden. W. G. LYONS, Commissioner.

Report of Solicitor Re. Board of Audit.

To T. D. Norval, Warden, and the Members of the County Council:—

GENTLEMEN,—

By By-law No. 294 I am required, as your Solicitor, to attend the meetings of the County Board of Audit, and look into and examine all accounts passed by said Board and report to you.

In pursuance of this direction, I attended the meeting of the

County Board of Audit on the 5th July last past.

Your by-law did not constitute me a member of the Board, and I was heard by the Board not as a matter of right, but merely as a matter of courtesy.

This Board's attention seems to be chiefly occupied with passing the accounts of the Clerk of the Peace, which seem to pass unquestioned. This being the case, I set myself to examine somewhat carefully his accounts.

I find by the report of the Inspector of Legal Offices that the total receipts of this officer for the year 1898 were $2,442.44, and after deducting his disbursements, consisting, I suppose, of rent, fuel, etc., the net receipts were $2279.71.

The County of Peel itself contributed $1,148.03, and the general public $215.58, the balance being paid by the Government.

So you will see the Board of Audit passed the sum of $1,148.03 to the Clerk of the Peace during the year 1898.

The amount seemed to me to be very large, and I examined the report to find the amounts paid to Clerks of the Peace for other counties, and I found that the average amount paid is between six and seven hundred dollars.

The Clerk of the Peace for Dufferin received $376.04 for the year 1898.

I find that Jas. Fleming, Esq., a former Clerk of the Peace for Peel, received in 1882 $540.20.

The present Clerk of the Peace received in 1884 $455.37, in 1885 $347.97, in 1888 $433.26.

His bill for quarter ending 30th June, 1899, presented at the meeting which I attended on the 5th July, amounted to the sum of $335.67, and there was passed for the quarter ending 30th September, 1899, the sum of $134.49, so that for the half year he has received $470.16.

Having found that he was being paid by the County more than the former Clerk of the Peace, and more than he received some years ago, and was being paid more than the Clerks of the Peace of other counties, I took steps to examine the accounts of the Clerk of Peace of Dufferin, and found that the Clerk of the Peace for Peel was being allowed larger sums than the Clerk of the Peace for Dufferin was being allowed for the same work, and was also being allowed sums that were not allowed to the Clerk of Dufferin.

I pointed out to the Board of Audit fees they allowed that the tariff did not warrant, but was met by the statement that the Justices of the Peace of the Sessions some eighteen years ago had passed a resolution authorizing these fees.

Of course this Board is not bound by what they did, but if they choose to allow the fees you cannot but expect they will be taken.

Years ago the work of the Board of Audit was done on the second day of each session, when it was necessary that at least seven magistrates should be present.

No doubt they were in the habit of allowing fees that the present tariff does not provide for, but it seems to me that this does not justify the Board of Audit.

I am, gentlemen,
Your obedient servant,
T. J. BLAIN.

Brampton, Nov. 14th, 1899.

Second Report of the Commissioner on County Bridges for Toronto Twp and Streetsville

To the Warden and Council of the County of Peel

The Committee met shortly after, and the following tenders had been received.

One from the Stratford Bridge Co., also one from the Hamilton Bridge Co.

We opened the tenders for the bridge, and they were as follows: The Stratford Bridge Co. $295.00; the Hamilton Bridge Co. $236.00.

We let the contract to the Hamilton Bridge Co. for the sum of $236.00.

The Committee also asked for tenders for supplying stone and sand, also for building abutments for said Bridge.

The following tenders were received.

One from John McCauley $139.00; one from Thos. Sharp $135.00; one from Frank Irvin $135.00.

We let the contract to Frank Irvin.

Your Commissioner met Mr. Evans, of the County of York, at

Summerville Bridge, and let the contract of grading the south end of said Bridge to Mr. Goodison for the sum of $20.00.

I recommend payment of half the sum to Mr. Goodison, the other half to be paid by the County of York.

Your Commissioner also received notice from Mr. Evans to meet him at the Silverthorne Bridge, near Summerville. I went there and we found it required new railing. We let the contract to Mr. O'Brien for the sum of $30, half of which sum I recommend the Treasurer be authorized to pay when Mr. Evans reports the work complete.

Your Commissioner also met the Warden and Mr. Lyons at Churchville Bridge, and let the contract of repairing said bridge to Chas. Kirke, for the sum of $285.00; which sum I recommend the Treasurer be authorized to pay to Mr. Kirke as soon as I report the work complete.

We recommend the following be paid for Committee work:

T. W. Robinson, 3 days at Churchville bridge	$	9 00
" 3 days at Mullet Creek bridge		9 00

Second Report of Commissioner on County Bridges for Toronto Gore.

To the Warden and Council of the County of Peel:

GENTLEMEN—

Your Commissioner for the Gore begs leave to report as follows:

Having been notified that the covering of the county bridge at Malton was in a dangerous condition, on examintion I found the plank worn so thin as to be in a dangerous condition. I therefore engaged Samuel Parr to draw the plank from Nashville and cover the bridge

for the sum of $3, and the old plank. Mr. Dalziel's bill for the plank is herewith presented, $19.78.

I also had the approaches repaired.

I engaged Mr. Hepton and team one day at $3; also Mr. Allen's bill for spikes, 12 cents.

I had the approach to Sargent's bridge on the 6th line, between the Gore and Chinguacousy, repaired by putting two cedar posts and cedar timber to hold the clay and stone.

The repairs being made by James Davy for the sum of $4.

All of which is respectfully submitted,

JAMES CRAVEN, Commissioner.

Adopted. T. D. NORVAL, Warden.

Third Report of the Education Committee.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Committee have had before them the account of D. Kirkwood, furnishing stamps to A. Embury, P.S.I., from Nov. 24, '98 to Nov. 11, '99, inclusive, amounting to $32. We recommend payment of account.

We have also had before us an account from The Conservator (S. Charters) amounting to $5.50, being for posters, post cards and printing; also circulars and envelopes, information to teachers re. change of examinations. We recommend payment of account.

We understand that the P. S. Inspector, Mr. A. Embury, purposes having but one promotion examination yearly in the County of Peel Schools in the future, and to hold such examinations at Easter, thus giving winter pupils an opportunity to secure a standing in the organization of the school.

Your committee would recommend that this Council continue as heretofore to defray the printing expenses of such examinations.

All of which is respectfully submitted.

(Adopted.) T. D. NORVAL, Warden.

Brampton, Council Chamber, Nov. 16, 1899.

Second Report of Commissioner on Bridges for Bolton and Albion.

To the Warden and Council of the County of Peel :

GENTLEMEN,—

I beg leave to report as follows :—

August 19th my attention was called to the defective state of plank on bridge on town line between York and Peel, known as Humber Bridge. On examination I found it in a dangerous condition. The planks in many places being worn through, I therefore ordered James Wilson to deliver planks, and had the bridge repaired at a cost of $29.81, which I recommend to be paid, as follows :—

James Wilson, bill for plank	
John Corless, covering bridge and repairing approach and spikes	$25 46 4 60
F. N. Levans, printing re. sale of old plank	75

I sold the old plank by public auction for the sum of $4.45 to John Corless.

In reference to grant on town line between York and Peel, given at June session: I met the Commissioner for York, Dr. J. C. Stokes, and, owing to some misunderstanding, he expended his grant on town line above Coventry, namely, fifty dollars on condition that Peel would spend like amount on town line opposite lot 8.

It was then getting late, as farmers were busy with their hay. I concluded I would not do anything till winter, as I thought I could get more work done for the money.

Trusting it will meet with your approval.

This grant is asked in lieu of $100 grant in June.

All of which is respectfully submitted.

S. A. EGAN.

And would recommend that the money be paid the Commissioner on work being completed.

Adopted.

Report of Commissioner on County Property Re. House of Refuge

To the Warden and Council of the County of Peel:

GENTLEMEN:

Your Commissioners beg leave to report that the out-buildings, including the barn and other building that have been under construction this summer are now completed with the exception of the outside door of the barnyard. We have retained the sum of $10 from the contractor in order that the work may be completed to our satisfaction.

Your Commissioner also secured the services of Mr. Harvey to assist in laying out the grounds. We were also ably assisted by the Sheriff and we think that this valuable property ought to be beautified and improved in appearance as it is the public property of the County.

Your Commissioners used great care in the construction of the work committed to their charge and think that the work has been done as cheaply as work of that kind could be done. The plans and specifications were prepared by Mr. Little and did not cost the county one dollar. We would also beg leave to submit a statement of receipts and expenditure for the past year, also an estimate of the probable amount required for the ensuing year for the support and maintenance of the inmates as required by by-law, and also a statement in detail of cost of out-buildings.

We also recommend that the Commissioners be paid for committee work and Mr. Jackson for services as inspector on barn.

James Jackson, 19 days	$ 22 00

" new window	1 25
D. W. Morris carpenter work as per contract	425 00
" moving buildings and material furnished	185 00
John McCauley building stone work under the removed buildings	21 70
John Irvin lumber account for repairs to buildings	50 87
Jas. A. Laird " " " "	31 60
D. McMorris for days work on small building	26 30
R. Blain eave-troughing as per contract	25 65
Frank Anthony re. painting	130 00
Total cost of out-buildings	$1304 37

This shows cost of barn to be about $916.00.

All of which is respectfully submitted.

W. R. WRIGHT, Chairman
(Adopted) T. D. NORVAL, Warden

Council Chamber, 17th Nov., 1899.

To Mr. Wright Chairman of the House of Refuge committee.

Estimate referred to in foregoing report

Dear Sir,

I have made out a statement of the running expenses and also of the receipts re. House of Refuge and farm, and you will see by the annexed statement that the receipts for the year 1899 to this date are $307.48 and the expenditure $1277.85. This leaves a balance against the County of $970.37. You can add to this about $200.00 to pay accounts and salaries to the end of the year.

I think in examining this statement you will find that $1200.00 will be about a correct estimate for your committee to make for running the farm for the year 1900. Whatever increase you make in salaries will have to be added to this amount.

I am, your Obedient Servant
ROBT. CRAWFORD.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Being commissioned by your Council at November Session, to have a three-foot sidewalk built from the limits of the corporation of the town of Brampton to the House of Refuge gate,

As the season was advanced I had the work done as soon as possible. I advertised for tenders in the three Brampton papers and received three tenders, viz:

From William McConnell at $2.60 per rod;

From A. Laird at $2.90 per rod;

From Crysdale & Holmes at $3.75 per rod.

I accepted the tender of William McConnell at $2.60 per rod, that being the lowest.

The work was done as soon as possible and to every satisfaction, and I ordered pay, which has accordingly been done, there being 92 rods, making a total of $239.20.

I would recommend that the Times, Banner and Conservator be each paid $1 for advertising for tenders.

I would also recommend that your Commissioner be paid the sum of $12 for 3 days commission work and mileage.

Report of County Solicitor on Accounts passed by the County Board of Audit.

To Robt. Johnston, Esq., Warden County of Peel, and Members County Council, County of Peel.

GENTLEMEN,—

I have examined the account of the Clerk of the Peace for the County of Peel for the quarter ending the 31st December, 1899.

I find that this account has been passed by the County Board of Audit in full, so that during the time that I have examined the accounts of the Clerk of the Peace for the County of Peel, the Board of Audit has not deducted anything from accounts rendered by the said Clerk. I have only to repeat what I said in my report to you of the 14th November, 1899.

There is no doubt that some of the allowances made are discretionary, but I find the discretion exercised by the Board of Audit is more liberal to the Clerk of the Peace than that of any other Board I know of; but there are items in the bill of the Clerk of the Peace allowed which I can find no legal warrant for allowing and do not believe that they should be allowed. But if they are passed by the Board neither you yourselves nor your Treasurer has any option but to pay.

I enclose my bill herein, amounting to $5.10. The sum of $2.10 is the amount of a bill I had to pay in order to get a copy of the accounts of the Clerk of the Peace of the County of Dufferin, which being necessary information, I think that you will not object to pay.

Yours truly,
T. J. BLAIN.

PETITION.

To the Hon. the Legislative Assembly of the Province of Ontarie in Parliament Assembled.

The Petition of the Municipal Council of the County of Peel,

Humbly Shewith :

That the Statutes of Ontario nowhere define clearly a lawful Roadway ;

That definitions reaching the public through Judicial decisions are very varied and not satisfactory ;

That Municipalities would be greatly assisted in their work by a clear Statutory definition.

Your Petitioners therefore humbly pray that your honorable body will, by a Statute, define what shall constitute a lawful Roadway,

And your Petitioners as in duty bound will ever pray.

TREASURER'S STATEMENT

Of County Accounts For The Year 1899.

Treasurer's Office, County of Peel,
January 23rd, 1900.

To the Warden and Council of Peel County:

GENTLEMEN,—

I beg leave to report that the County accounts for the year ending Dec. 31, 1889, are prepared in detail and ready for audit.

The receipts from all sources (not including school monies) during the year amounted to $46,823.44 and the payments to $46,924.99, leaving a balance Dr. to Dominion Bank on Jan. 1st, 1900, by overdrawn account of $104.49 and $2.94 cash on hand, leaving the County Dr. Jan. 1st, 1900, $101.55.

You will observe that the balance was on the wrong side for beginning the year, and it will be necessary for your Council to make provision for borrowing $10,000 at this Session to carry us over to the June Session of the Council, and you will then have the estimates to guide you in what further sum you will require.

Your Commissioners made provision at their January meeting for borrowing $2,000.00 from the Dominion Bank to meet current expenses, and your Warden and Treasurer borrowed said sum, and it will be necessary to have this ratified by your Council.

I am your obedient servant,

Brampton, June 6, 1899.

To the Warden and Council of Peel County.

GENTLEMEN :—

I herewith submit the estimates for the year 1899 :—

There was a balance to the credit of the County on the 1st of January, 1899, of $79.97, being a decrease on the preceding year of $4794.46. This decrease in balance is attributed to the House of Refuge. The payments re House of Refuge for the year 1898 were $18213.67, as against legacy of the late Jane Porter, raised by debentures and government grant, amounting in all to $15948.49, leaving a balance to be paid out of County funds of $2265.18.

I have also attached a statement of County Finances for the last five years, showing the amount of money borrowed from the bank at this date in each year and also the balances to the credit of the County at this date for the last five years.

This will assist you in arriving at the amount to be raised by taxes.

Your commissioners passed a resolution in March empowering the Warden and Treasurer to borrow a further sum of $4000 in excess of the By-law passed in January.

This should be now ratified by your Council and increased ten thousand dollars to meet current expenses and provide for new buildings being erected at House of Refuge farm.

Your obedient servant,

R. CRAWFORD, Co. Treasurer.

To the Warden and Council of the County of Peel:

GENTLEMEN,—

I herewith submit the Estimates for the year 1900:

We were indebted to the Dominion Bank by overdrawn account on Jan 1st, 1900, $104.49; cash on hand $2.94. Our liabilities at the beginning of the year for outstanding accounts were about $1000 as passed by County Commissioners and County and Criminal Auditors on Jan. 5, 1900. I have received from the government for Administration of Justice for December Quarter, 1899, $923.66, and your Warden and Treasurer have borrowed for current expenses from Dominion Bank, $7,000 to this date; this shows a decrease in the expenditure of $2,000 as compared with the same date last year.

I think it would be advisable to levy a rate that would give a balance to begin the year of at least $2,000.

Your Obedient Servant,

ROBERT CRAWFORD, Co. Treasurer.

AUDITORS' REPORT

To the Warden and Council of the County of Peel:

GENTLEMEN,—

Your Auditors beg leave to report that they have carefully examined the books and accounts of your Treasurer for the year ending December 31st, 1899; and have found properly authenticated vouchers to correspond with the various entries.

Your Auditors would suggest, however, that in submitting the estimates for the current year a rate be levied sufficiently large to provide a surplus instead of a deficit, and thus save the large amount being paid for interest, which for the year just ended amounts to $532.60.

We are of the opinion that it is not compatible with economy and progress in an old and settled county like Peel to have as small a deficit as $101.55, as shown in the abstract statement of Receipts and Expenditure for the year A. D., 1899.

We desire to place on record our appreciation of the manner in which the books of the Treasurer are kept; and reflect credit on the executive ability of Mr. Crawford. We further desire to tender our thanks to the Treasurer for the courtesy and kindness that marked his intercourse with us while auditing said accounts.

All of which is respectfully submitted.

JOHN T. SCOTT,
T. E. ARMSTRONG, } Auditors.

Adopted, Brampton, Jan. 26, 1900. R. JOHNSTON, Warden.

Auditors' Report of School Moneys for 1899.

Moved by Mr. Anderson, seconded by Mr. Little, that the following letter of congratulation be forwarded to His Majesty, Edward the VII. Carried :

To His Most Gracious Majesty, Edward the VII., King of Great Britain and Empire of India :

May it please your Gracious Majesty, the Municipal Corporation of the County of Peel, in the Province of Ontario and Dominion of Canada, join with all the subjects of your world wide empire in extending to your Majesty sincere congratulations upon your accession to the throne of your fathers and to the arduous duties of Government which devolves upon you through your succession in a lineage whose history has been the record of advancement and of civilization for a thousand years.

We beg to express the conviction that your life-long training for the duties of Empire under the happiest of auspices, begin under the care of Albert the Good of ever blessed memory, and continued under the most regal and womanly of Queens, will not fail to secure for your many subjects of various climes those blessings of all-pervading law, order and social advancement, which at present bid fair to annihilate distance and focus time in a common citizenship, a common brotherhood and a common purpose among the various peoples and races of your Empire.

We humbly offer to you our unworthy expression of the deep sense we

and all your subjects share in the decease of Her Most Gracious Majesty the late Queen of the Realm, and assure you that all our hearts go out to you in this your hour of trial, fraught with great responsibilities, under the shadow of a great sorrow.

The love her subjects bore Her late Majesty, will ever be a cherished memory and an abiding force in the annals of that monarchy which she did so much to glorify.

We humbly pray that He who rules over all will keep thee in His abiding care as the hope and stay of an Empire raised to an eminence of glory as yet unattained in the history of nations, and possible only under those who have been providentially reared and spared to inherit its wealth of traditional honor and glory and to perpetuate the same through a succession of ages.

We beg to subscribe ourselves as your Majesty's most loyal and dutiful subjects.

REPORTS OF COMMITTEES.

First Report of the Commissioner on County Bridges for the Township of Chinguacousy.

To the Warden and Council of the County of Peel:

Gentlemen:

On the 25th of August I was called to meet the Road and Bridge Committee of the County of Halton, at Norval, to consider the advisability of building a new bridge on what is known as the Race Bridge.

After examination and consultation, we concluded that with some temporary repairs the old bridge would stand safely until next summer.

We also at said meeting let a contract to Robt. Noble to build a breakwater at the south corner of the Credit Bridge for the sum of $35, said breakwater to be built during the coming winter.

I would recommend that one-half of the said $35 be paid by the Treasurer when your Commissioner reports the work duly performed.

We also let a contract for painting the steel structure of the said Credit Bridge to George McAndrew for the sum of $16. The work being completed to our satisfaction, I would recommend payment of one-half the above amount, viz., $8.

On the 20th of September I received notice that the above-mentioned Race Bridge had gone down. I notified Mr. Anderson to be present, and we met the committee of the County of Halton. We found the whole structure a total wreck and a new bridge necessary.

We let the contract for building the stone abutments to Joseph E. Bates for the sum of $11.00 per cubic yard. We also have a tender from William

Beer at $10.50 for a lighter class of stone. We concluded, however, to accept the above tender of Mr. Bates.

The abutments have been completed to our satisfaction. I would therefore recommend that the Treasurer be authorized to pay the account presented, viz., 41 yds., 17 ft., or a total of $456.50, Peel's portion being $228.25.

We let the contract for the bridge to the Hamilton Bridge Company for the sum of $425.00, if the Counties furnish the road plank, or $475.00 if the Company furnishes the plank. As we are anxious to have white oak floor plank, which we are now negotiating for, we will probably accept the $425 offer and furnish the plank, which will be in the immediate neighborhood of $475 in all. The above is for a bridge 42 feet over all, being a Warren truss with steel girders for joists, tubular guard rails, and everything complete.

The bridge, as agreed, will be erected before the 25thof this month. I would therefore recommend that the Treasurer be authorized to pay, on the order of your Commissioner, when the contract is duly carried out.

Peel's portion will be about $237.00.

There will also be some work to be done on the approaches, which will not exceed $10, which I would also recommend to be paid on the order of your Commissioner.

All of which is respectfully submitted.

WM. G. LYONS, Commissioner.

Adopted.

ROBERT JOHNSTON, Warden.

Third Report of Commissioner on Roads and Bridges for Bolton and Albion.

To the Warden and Council of the County of Peel :

Gentlemen :

I beg leave to report as follows :

1. July 3, I got notice that the bridge known as Glasgow Bridge was in a dangerous condition. On examination I found that the planks were badly worn. I ordered James Wilson to deliver planks and got John Corless to cover same at a cost of $10.60, as follows :

James Wilson, 480 feet plank	$9 60
John Corless, work	1 00
	$10 60

which I would recommend to be paid your Commissioner.

2. I received a communication from Mr. Norman, Commissioner for York, that he had received notice from Mr. McDougall, County Engineer for York, that the two bridges opposite lot 9, were dangerous, and to have them repaired at once ; also to have a guard rail placed at both ends of bridge known as Humber Bridge, opposite Lot 8.

I met the Commissioner for York, and on examination we found that the stringers in said bridges were dangerous and the planking on one of them nearly worn through. We decided that owing to the difficulty of getting stringers 25 feet long, it would be better to have trusses put on said bridges. Therefore I ordered from Mr. Wilson the lumber required for the job, viz. : 2550 feet plank and timber for two bridges, $51.00 ; material for guard rail at Humber Bridge, 160 feet of plank, $2.25 ; 12 cedar posts, $1.70 ; 100 feet cedar timber, $1.60 ; total $5.55—which accounts I would recommend to be paid your Commissioner.

It being too late to let the work by tender, your Commissioners concluded to have the work done by day work, which along with irons and other necessary items, will cost about $30.00, which I would recommend to be paid on the order of Commissioner when work is completed. One-half to be paid by the County of York.

All of which is respectfully submitted.

S. A. EGAN, Commissioner.

Brampton, Nov. 15, 1900.

On examination I found the plank worn out. I let the covering to Samuel Farr for the sum of $3 and the old plank. The bill for lumber is herewith annexed.

I also found the guards on the north east side of the bridge nearly down and those on the south side rotten. I let the resetting of the old posts on the north east side and fourteen new posts on the south side of the bridge to Robert Bullock for the sum of $16, he to find scantling or plank to finish the guards; also to furnish a rod 19 feet long to run across the road to hold the two posts nearest the bridge in place. As the work is not completed, I would

recommend that the Treasurer be instructed to pay on the order of your Commissioner, when the work is completed.

All of which is respectfully submitted.

We let the work to Mr. Thos. Armstrong for the sum of $12, which work has been done to our satisfaction.

Report of Dr. Moore, Physician to House of Refuge.

To the Warden and Council of Peel County :

Gentlemen :

I present herewith my Third Annual Report as Physician to the House of Refuge.

During the year from June 1st, 1900, to May 31st, 1901, I made 61 visits and prescribed for the inmates in 263 cases.

There was one birth of a male child on Aug. 25, 1900.

There were four deaths. John Byrnes died Oct. 15, 1900, aged 62, from Bright's Disease. He was admitted on May 31st of the same year suffering from this affection. Jane Buchanan died Dec. 2, 1900, aged 81, from rheumatism and old age. She was in the House from the opening. Samuel Brown died April 2, 1901, aged 81, from senile heart and bronchitis. He was first admitted during the winter 1899-1900 with senile heart and dropsy, and his death was accelerated by an accidental fall. William Rankin died May 19, 1901, aged 84, from old age, with gradual decay of body and mind.

There was more than the usual amount of sickness during the year, although I visited the House on two occasions when there was no sickness reported.

A fruitful source of physical evil is the annual hegira of inmates in the spring to work outside through the summer, and return on the advent of cold weuther for repair of the effects of work and dissipation.

I have to express my obligation to Dr. Lawson for his advice and assistance in a difficult case, on several occasions, and to repeat the expression of my indebtedness to the Keeper and Matron for their umform courtesy and support.

Respectfully submitted.

CHAS. Y. MOORE.

Your Committee would recommend that a grant of $200 be made to the Corporation of the Town of Brampton towards putting down a granolithic sidewalk 5 feet wide, rough finish, opposite the County property, in the said Town of Brampton.

We also had before us a communication from the County Treasurer of York, and a statement of payments made on County bridges between York and Peel.

The statement shows $226.39 paid by County of York in the year 1900, and shows the County of Peel to be indebted to County of York to half the above sum, namely, $113.19.

The communication also sets forth that according to the statement of our County Treasurer, the County of Peel has paid $171.02 for County bridges between York and Peel ; and the County of York is therefore indebted to the County of Peel for half the said sum, namely, $85.51.

We have also communications from the Toronto Railway Co. and the Canadian Bridge Co., also a copy of His Lordship Chief Justice Falconbridge's address to the Grand Jury.

All of which we will ask your consideration.

(No action by Council. Ordered papers to be filed).

All of which is respectfully submitted.

Brampton, June 4, 1901. S. A. EGAN, Chairman.

First Report of Commissioner on County Property, Roads and Bridges, for Toronto Gore.

COUNCIL CHAMBER, June 5.

To the Warden and Council of the County of Peel :

Gentlemen :

My attention was drawn to a bridge on Town Line between County of Peel and York, between the Townships of Toronto Gore and Etobicoke, on what is known as the "Indian Line."

Not having had an opportunity to inspect said bridge, but have been informed that the approaches are in a very dangerous condition, and want immediate attention ; and would ask the Council that the work be paid for on my certifying to its being performed, the County of York paying half the amount.

GEO. T. WARD, Commissioner.

Adopted.

W. G. LYONS, WARDEN.

First Report of Commissioner on County Bridges for the West Half of the Township of Caledon.

To the Warden and Council of the County of Peel :

Gentlemen :

The attention of your Commissioner was called to the giving way of one of the approaches to the County Bridge on the Town Line between Caledon and Chinguacousy, near Inglewood.

I visited the place, and found that the water had undermined and washed away quite a large part of one of the approaches, and left it in a dangerous position.

Your Commissioner would recommend that the same be repaired without delay, and that the work be paid for on the order of the Commissioners from Caledon and Chinguacousy.

All of which is respectfully submitted.

JAMES DAVIDSON, Commissioner.

Adopted.

W. G. LYONS, WARDEN.

First Report of Commissioners on House of Refuge.

To the Warden and Council of the County of Peel :

Gentlemen :

Your Commissioners ask leave to report as follows :

1st. Your Commissioners met on the 16th day of February in the Office of the House of Refuge.

Members all present.

On motion of Mr. Shook, seconded by Mr. Ward, Thos. Little was appointed chairman and Geo. T. Ward secretary.

2nd. Your Commissioners made a general inspection of the outbuildings and stock on the Farm, and found everything in perfect good order, with the exception of the ventilation in the under flat of the barn, which we intend having made right.

3rd. In coming into the House, we found the inmates seemingly comfortable, and most of them quite contented ; but after further investigation we found the male inmates were allowed to spend too much time in the Furnace Room, and therefore instructed the Keeper not to allow that state of affairs in future, which we believe he has attended to.

4th. Your Commissioners appointed Mr. Ward and the Keeper to purchase clothing for inmates of the House of Refuge.

SECOND MEETING.

House of Refuge, March 9, 1901.

1st. Mr. Cunnington appeared before your Commissioners, asking an order for useful and ornamental Nursery stock for the Orchard and Lawn on House of Refuge farm.

Your Commissioners informed him that they were not in a position to give an order at that time.

2nd. Your Commissioners instructed the Keeper to purchase one hun-

dred and fifty cedar posts, not to be less than six inches at the small end. The Keeper was also instructed to purchase the sugar by the barrel for use in the House of Refuge, and to sell the yearling colt if a suitable price could be obtained, not to be less than $50.00.

3rd. Your Commissioners considered that it it would be advisable in the interest of the institution, for them and the Keeper to visit some other institution of the kind to obtain as much information as possible regarding the working of the institution. It was therefore arranged to visit the House of Refuge at Beeton, the following Saturday, March 16th, 1901.

4th. Your Commissioners, Little and Ward, with Keeper Johnston, visited the House of Refuge at Beeton and were well received by the Keeper and Commissioners there. We were met at the station by Mr. Ross with carriages, expecting the whole Council were coming. On arriving at the House lunch was served, after which we were shown through the whole establishment by the Keeper and Commissioners. The building is one of the most modern and up-to-date of its kind, and is furnished throughout in first-class style. The inmates numbered about 79; everything was clean and in excellent order. The doctor also informed us that he visited once a week and took some part in making the inmates keep things right and in proper order. The matron told us they were able to run the whole institution inside by the inmates, and the help of one servant girl.

Your Commissioners could come to no other conclusion than that the institution was run on first-class business principles, and that they and their keeper had learned many things that would be valuable in connection with the running of our own. We were then driven to the station, escorted by the keeper, Mr. Ross, the Commissioners and several local gentlemen, and took our departure home, well satisfied with what we had seen and learned.

5th. Your Commissioners reccommend that the following be paid for Committee work :

Thomas Little, three days and mileage	$12 00
" " one day at Beeton and railway fare	4 00
George T. Ward, 3 days and mileage	11 10
" " 1 day at Beeton and railway fare	4 00
Henry Shook, 3 days and mileage	14 10

All of which is respectfully submitted.

THOS LITTLE, Chairman.

TREASURER'S OFFICE, COUNTY OF PEEL,
Brampton, Jan. 22nd, 1901.

To the Warden and Council of the County of Peel :

GENTLEMEN :

I beg leave to report that the County Accounts for the year ending Dec. 31, 1900, are prepared in detail and ready for audit.

The Receipts from all sources (not including School Moneys) during the year amounted to $35010.51, and the payments to $34751.50, leaving a balance on hand to the credit of the County on Jan. 1st, 1901, of $259.01, as against a deficit of $101.55 at the same date one year ago. Your Commissioners made provision at their last meeting for borrowing from the Dominion Bank a sufficient sum to meet current expenses until first meeting of the Council, and your Warden and Treasurer issued a note for $1500.00 on the credit of the County, and your Council are now required to ratify the same.

You will also require to make further provision for borrowing such sum or sums as may be required for current expenses for the present year.

AUDITORS' REPORT.

To the Warden and Council of the County of Peel:

GENTLEMEN:

Your Auditors beg leave to report that they have carefully examined the books and accounts of your Treasurer for the year ending December 31st, 1900, and have seen properly certified cheques, or vouchers, to correspond with the various entries, or, in other words, where there was no voucher there was a cheque in lieu thereof.

Your Auditors observe that the sum of $13,000 was borrowed from the Bank in 1900, which necessitated the payment of $361.67 interest, but are pleased to notice that a reduction of $170.93 has been made in the interest since 1899, which was in that year $532.60.

Your Auditors also find that there is a balance in the Dominion Bank to the credit of the County of $259.01.

Your Auditors desire to compliment Mr. Crawford on the manner in which he has kept his books, showing, as they do, unmistakable signs of carefulness and cleanliness, and also executive ability, in the discharge of his duties as Treasurer.

We further desire to tender our thanks to Mr. Crawford for the free, open and explicit manner in which he answered all questions touching the auditing of said accounts.

All of which is respectfully submitted.

REPORTS OF COMMITTEES

Report of the Warden, realative to the Child he was appointed to have given out for adoption.

To the Council of the County of Peel:

Gentlemen:

Having been authorized by this council at the June session to have the child now being kept by Mrs. Wilcox given out to some responsible person I first interviewed Mrs. Wilcox, and she told me she could not see her way clear to adopt the child. I then advertised the child for adoption in the county papers and received three application, Mrs. Wilcox herself being one of them. After due consideration I considered it advisable to leave the child with Mrs. Wilcox, she agreeing to adopt him and take full charge for the time to come.

I have had the papers prepared by the county solicitor.

I would recommend that Mrs. Wilcox receive the usual grant of $8 per month until April 1902.

All of which is respectfully submitted.

Second Report of Commissioner on County Bridges for Toronto Township. East Side.

To the Warden and Council of the County of Peel :

Gentlemen :

Your Commissioner begs leave to report that owing to the bad state of the planking on the steel bridge over the Etobicoke river, between Peel and York, on 1st Con. North of Dundas St. He, with Mr. Evans, commissioner of the county of York, had the same replanked with white oak at a cost of sixty dollars and seventy cents ($60.70). We purchased the plank from A. S. Lamb, of Meadowvale, at $25 per thousand at mill. We paid $4 for teaming, making in all the sum of $52.30 due Mr. Lamb. We engaged Mr. Richard Jordan to do the work and furnish spikes, at a cost of $8.40.

I would recommend that Mr. Lamb and Mr. Jordan be paid these amounts in full, and that one-half of the sum be charged up to the county of York.

We also found it necessary to have guard rails put up on the east end of the bridge on first line, south Dundas St., over the Etobicoke river. The work was let to Wm. O'Brien at $16, and I would recommend that one-half of this be paid by the county of York when presented.

All of which is respectfully submitted.

First Report of Commissioner on County Bridges for the Township of Chinguacousy.

To the Warden and Council of the County of Peel :

Gentlemen :

My attention was directed last June to the very defective state of a bridge on the town line between Albion and Chinguacousy, one mile north of Tullamore.

I, therefore, in company with Mr. Ward, visited the place, and found the whole structure in a very dilapidated state, so much so, that we had to take immediate steps to have new covering and guards put on the bridge. We then notified Mr. Egan to meet us the following Saturday, at the bridge, to make arrangements as to the plan and kind of bridge we would have to build.

We concluded to build a thirty feet span, all steel bridge, with heavy stone abutments.

We advertised the building of said abutments to be let by public auction, at that place in two weeks from that day ; we also agreed that each of the commissioners, viz.—Mr. Egan, Mr. Ward and myself, would correspond with different bridge manufacturers and get their estimate for a steel or wooden bridge. We received five estimates, one from the Hamilton Steel Bridge manufacturing company for $200 ; from Alex. Dick & Son of Alton for $250 ; from the Stratford Steel

Bridge Co. for $270 with wooden joints, or $363 all steel; also two for wooden structures; one from Beer & Co., and one from Grafton, which were so near the cost of steel that we did not consider them.

According to advertisement, we let the building of the abutments to J. P. Austin, for the sum of $150, but afterwards found we had to go deeper than we expected, and were obliged to give $15.50 for extra depths of wall in foundation.

On account of Mr. Dick & Son being manufacturers in our county and ratepayers, Mr. Egan and myself offered them the preference, providing they took the contract at the same amount the Hamilton Bridge Co. had tendered for, viz. $200, which they afterwards did, and signed the contract.

I then employed men and teams, from the farmers in the immediate neighborhood by the day at $3 for man and team, and $1.25 for single man, to complete the grading, building breakwaters, and putting on covering on bridge. The whole of said work was completed in a good and workmanlike manner, for the sum of $67.65.

I paid for incidental expenses, such as making temporary bridge for use of the public travel, for keeping a light for danger signal at the bridge; stone for capping walls under stringers; iron spikes and bolts for covering, amounting to $17.40; also 1300 reet of pine plank at $20 per thousand, amounting to $26.10.

The above is for an all steel Warren Truss bridge 30 feet long, over all, with a 14 feet clear roadway; with steel girders and joists, tubular rails and everything complete.

The whole has been painted and finished in a good and workmanlike manner, and to the entire satisfaction of all the Commissioners concerned. I would therefore recommend that the Treasurer be authorized to pay the accounts as rendered and passed by your Commissioners, as per schedule annexed, amounting in all to $475.65.

I also beg leave to report that I did, in company with Mr. Ward, Commissioner for the Gore, inspect the bridge known as Sargent's Bridge, on the sixth line east, and the one at Stanley Mills, and found them both becoming dangerous. Mr. Ward and I came to the conclusion that there must be something done with them next summer to insure the safety of the travelling public.

All of which is respectfully submitted.

Council Chamber,
Nov. 14th, 1901.

Commissioner.

Second Report of Commissioners on House of Refuge

To the Warden and Council of the County of Peel :

Gentlemen:

Your commissioners beg leave to report having visited House of Refuge on July 6th and passed accounts to the amount of $109.80 ; we also took a general survey of the farm and outbuildings, and found things in general in a satisfactory condition, considering the condition of the farm some months before.

We find the inmates are generally satisfied with the treatment they receive from the manager.

Your commissioners are of opinion that the manager should use some means to try and get more work done by the inmates during the the summer months, and your commissioners have from time to time urged Mr. Johnston to try some way to make the inmates more useful and do more work.

Your commissioners visited the institution again on October 6th and passed accounts amounting to $224.58; on going through the house we found things generally satisfactory, and on proceeding to the barn found the grain crops all harvested and in good condition.

On proceeding to the fields we found a most excellent crop of roots, and they had been kept in good shape, the ground thoroughly tilled as it is necessary for a crop of that kind to be kept.

We also report having had some fencing done on the farm ; also that we have got the lawn well seeded and trees planted, which, if properly taken care of, will be an ornament to the place.

Your commissioners beg leave to say tnat they are unable to give a full report at this session, it not being the end of the year, and at the January session will give a detailed account of the proceeds and expenses of the farm prope.

Cunningham, agent for the Pelham Nursery Co., fruit and ornamental trees at a cost of $43.16 which your commissioners are pleased to report have done well and the agent has agreed to replace all trees that have died.

House of Refuge Physician's Report

To the Warden and Council of the County of Peel:

Gentlemen:

During the year from June 1st 1901, to June 1, 1902 I made 57 visits to the House of Refuge and prescribed for the inmates in 246 cases.

There were five deaths in the year covered by this report.

1. Mary Linskey, died Sept. 29, 1901, aged over 100 years, from old age.

2. John Freel, died Nov. 7, 1901, aged 80, from senile heart.

3. George Anderson, died Nov. 20, 1902, aged 70, from chronic hepatitis.

4. Robert Shurtleff, died Dec. 28, 1901, aged 65, from bronchitis and debility.

5. James Donnelly, died April 28, 1902, aged 69 years, from paralytic stroke.

It is very difficult to get the correct ages, the inmates being unable to give them, or giving different ages at different times.

Mary Linskey, familiarly known as "Granny," came to the House shortly after it was opened. She then said she was about 100 years old, a statement which her appearance and condition fully confirmed.

Robert Shurtleff was admitted in a critical condition, evidently the result of exposure, a few days before his death.

James Donnelly, a sufferer from rheumatism, had a severe stroke and lived only about six hours.

There is no illness of an unusually serious character in the house at present.

Christopher Holtorf, a man of 82, who entered in the latter part of January, with dropsy, &c., had greatly improved, when near the middle of March he fell and broke the neck of the thigh bone. He will never walk again except perhaps with the aid of a crutch.

I remain, gentlemen, your obedient servant,
CHAS. Y. MOORE, Physician.

PUBLIC SCHOOL INSPECTOR'S REPORT

To the Warden and Council of the County of Peel :

Gentlemen :

I have the honor to submit my report for the year 1901. The schools are making a steady progress in the direction indicated by the practical demands of the time. Nearly all subjects are now sought after from a practical point of view, and I am able to state that teachers are beginning to prepare for a more practical way of teaching by laying hold upon the facts of experience within the knowledge of the pupil, and upon the material for observation afforded in the life and surroundings of the school and its vicinity. A too rigid adherence to the prescribed course of study has hitherto prevented teachers from laying hold upon this material of observation and experiment; but to-day our more progressive and studious teachers are beginning to recognize the fact that education has to do with living realities, that education itself is Life, and that its spirit is quickened only by the contact of the pupils' mind with life both in the school and beyond it. Method in education is falling into its true place as the living, organic form of presenting Truth, and as such is coming to be regarded as variable, according to the pupils' aptitude and to the nature of the

material presented. I cannot speak with any too great confidence in regard to the studies pursued by teachers. They are still deficient in general knowledge, in literary acquisition, and in language. The training in history and literature afforded by our secondary schools rests upon no very sound basis. The etymology of English speech and its derivative elements are practically unknown to the teachers of to-day. Of every feature of school work, it seems to be extremely difficult for the teachers to obtain a comprehensive view. But they are, I can safely affirm, working with more insight into the nature of the educational problem than at any previous time.

The financial position of the schools remains practically unchanged. The total cost of conducting the schools was $57,093.26. Of this sum, far the larger proportion was expended in salaries which amounted to $30,578.17. The amount expended for new school houses and sites was $1800.92, while the trustees bought maps and apparatus to the amount of $1127.67. The balance remaining to the credit of the trustees was $11,180.80. I find that trustees do not take adequate measures for the preservation of the maps and apparatus, that much of it is unused by the teachers, and that the maps especially are not kept readily accessible to the pupils and classes. Trustees do not make proper provision for cleaning and sweeping, and neglect the school premises to a degree which casts much discredit upon the tastes of the community. Steps should be taken to encourage school-gardens and the proper adornment of the school grounds. Trustees and teachers working together for the better condition of both school and premises could accomplish much in the way of beautifying the school surroundings and in developing the tastes of the pupils.

The number of normal trained teachers now exceeds that of the teachers trained only in the model schools. There were in 1901, six first class, fifty second class, and forty-four third class teachers. I do not see any great reason at present for maintaining so many model schools which should henceforth be restricted to the undeveloped counties and districts. This county should not employ forty-four inexperienced teachers. Local influences still operate to cause their appointment. Legislation upon this distribution of teachers is sadly needed.

The total number of the pupils enrolled in the schools was 4566, and the average attendance was 2402. The percentage varies in the different townships. The percentage in Brampton was 64 per cent, in Toronto Twp. 51, in Ching. 52, in Albion 57, in Caledon 45, in Toronto Gore 55. It is claimed in some quarters that the percentage of the townships could be made to equal that of the town if our school sections were consolidated, and the graded school established in the rural districts. I doubt the validity of this claim. The expenses could certainly be diminished, but the graded school has disadvantages that far outweigh any consideration of expenditure. The average pupil from the ungraded school, though not possessing an equal amount of

knowledge, in an undigested form, far surpasses the graded school pupil in capacity and self-reliance. The graded school system is a selective and sifting machinery, while that of the ungraded school is eclectic in character and gives greater scope for individual aptitude and development. I shall not discuss this question further than to say that at present the state of public opinion and the social forces are distinctly against the consolidation movement which, if successful, would, in my judgment, efface educational opinion and interest in the rural districts. The regularity of attendance in 1901 was more marked than in previous years, and I cherish the hope that as our rural schools become more commodious, better furnished, and more attractive, the regularity of attendance will leave nothing to be desired.

There were 200 P.S. Leaving pupils in the county schools, whereas ten years ago there were not 50. But the course of study for these pupils is controlled by the demands of the High Schools. This should not be longer tolerated. While 90 per cent. of the public school pupils never enter a High School, the strange anomaly is presented in the fact that the studies of this overwhelming proportion of our school population are directed and shaped with a view to preparation for a High School course. I know of no other province or country in the world where such a state of affairs is tolerated by the repeatedly expressed opinion of the people for whose benefit the schools are established and maintained. The condition is permanent because public opinion is stagnant, and this stagnation of the public mind is due to a lack of conception of public interest. The press and the platform of this province have been unable so far to popularize educational questions or to clarify the public mind with regard to the essential features of education. Why this inability? Because of the absence of historical background, and the nation's inability to move forward and upward through lack of culture to look backward. Everything is in anticipation, and every question of vital interest remains unqualified by the teaching of history or the lessons of experience. The curriculum for our public schools must be recast at no distant date.

Nearly all the schools are opened by the reading of a passage of Scripture and closed by a formal prayer. The personal habits and influence of the public school teachers are of a most exemplary character; and I must say that the system of discipline and management in practice is effecting a gradual, though silent revolution in the manner and bearing of the pupils. Politeness and courtesy are now the rule, not the exception, and the open antagonism of years ago between teachers and pupils has almost completely disappeared.

The methods of instruction employed leave much to be desired. Arithmetic, grammar and geography, as taught even to-day, call for greater thoroughness of preparation on the part of our teachers. There is a distinct improvement in the results of methods applied to teaching reading; but many of our teachers are very indifferent

readers and there should be greater attention paid to the subject in all our higher institutions of learning.

The Teachers' Institute continues to hold its annual meetings, the discussions are much more practical year by year, and the interest in its meetings has increased correspondingly. I have to thank your council for its liberality in dealing with the Institute and in its generous support of the County Model School.

I have the honor to be, gentleman,
Your obedient servant,
ALLAN EMBURY,
P. S. I. County of Peel.

First Report of Commissioner on County Bridges For West Half of Chinguacousy.

To the Warden and Council of the County of Peel :

Gentlemen :

My attention was called to the unsafe condition of one of the approaches to the Terra Cotta bridge, lot 27, town line, Esquesing and Chinguacousy. I notified the commissioner for the County of Halton. Mr. Wrigglesworth. After duly advertising, we let a contract for building a stone breakwater, grading approaches, and repairing guard rails, for the sum of $29.00 Edward Smithson being the contractor.

I would recommend that the treasurer be authorized to pay on the order of your commissioner for the above amount, and also $2 to Josiah Townsend for inspecting the above work, one half viz: $15.50 to be refunded by the County of Halton.

A short time ago I received a communication from the commissioner for the Co. of Halton, Mr. Wrigglesworth, requesting me to meet him at the steel bridge at Norval, as the floor of this bridge was considered unsafe. Mr. Wrigglesworth was unfortunately not able to be present.

I found on examination that this bridge will require a new floor and probably new joists.

I would recommend that the Treasurer be authorized to pay, on the order of your commissioner, when he reports the work duly preformed.

All of which is respectfully submitted.

	$6 75

Which I would recommend be paid to your commissioner, one-half to be paid by the county of York.

We also inspected bridge opposite lot 8, and found that the south abutment was in a very bad state, and that a breakwater would be required to protect the abutment, and as Mr. Norman would not do anything towards repairing it without consulting the other commissioners on roads and bridges, I would recommend that Mr. Little, Mr. Ward, and Mr. Egan, be a committee to meet the York commissioners at said bridge on Saturday the 21st of June at 2 o'clock, and that they have power to repair, and the treasurer pay for same on order of commissioners. I would also recommend that the clerk notify Mr. Norman, Warden of the County of York, of the date of meeting.

All of which is repectfully submitted.

First Report of Commissioners on House of Refuge

To the Warden and Council of the County of Peel :

Gentlemen :

Your Commissioners ask leave to report as follows :

1st. Your commissioners met on the 15th day of February, 1902, in the office of the House of Refuge.

Members all present.

On motion of Mr. Ellis, Thos. Little was appointed chairman and Jas. Jackson secretary of commission.

2nd. Your commissioners made a general inspection of the out-

buildings and stock on the farm and found all in perfect good order.

3rd. On coming into the house we found the inmates comfortable and seemingly well contented.

4th. After examining the House we found that several of the rooms wanted cleaning and whitewashing ; also two of the caretakers rooms wanted papering. The keeper and Mr. Jackson were authorized to have necessary cleaning and papering done as soon as convenient.

5th. Your commissioners instructed Mr. Jackson and the keeper to procure enough cedar posts for the season's fencing and whatever clothing was necessary for the inmates at the House of Refuge ; also a pair of weigh scales for use at the barn.

SECOND MEETING.

House of Refuge, April 5, 1902.

Members all present.

Minutes of last meeting read and approved.

1st. We had before us Mr. Alex Cunnington, agent for sale of nursey stock, but having purchased what was wanted at the time from Mr. Wiley of the Gore we did not give him an order.

2nd. We had before us the Quarterly Accounts which we examined and found satisfactory, showing receipts amounting to $89.70, and payment, $346.40. A detailed statement will be given at the November meeting of your Council.

Special Meeting House of Refuge March 17th. 1902

By request of Mr. Johnston, keeper of the House of Refuge.

I as chairman of the Committee called a special meeting for the purpose of investigating the case of Elizabeth Bignell, and of the inmates, who had became pregnant. Your Committee questioned her very closely in reference to the matter, but could not get much satisfaction as to who was the guilty party. We did not examine her under oath as we found she did not understand the nature of an oath. We therefore authorized Mr. Jackson to go to Toronto to see if he could get the two children belonging to the aforesaid Elizabeth Bignell, now inmates of the House of Refuge, placed in some Home for such children, and that legal proceedings be taken to have the said Elizabeth Bignell placed in the Mercer Reformatory.

As to Mr. Jackson's mission to Toronto, in reference to the two

children, he is prepared to give your Honorable body full information.

2nd. Your Commissioners recommend that the following sums be paid for Committee work, viz.

Thos. Little, 3 days and mileage	$12 00

Treasurer's Statement of County Accounts for Year 1901.

Treasurer's Office, County of Peel, Jan. 28, 1902.

To the Warden and Council of the County of Peel :

Gentlemen :

I beg leave to report that the County Accounts for the year ending 31 Dec., 1901, are prepared in detail and ready for audit.

The receipts from all sources (including government grant for continuation classes in public schools) was $35,799.55, and the payments $35,330.52, leaving a balance on hand of $429.03.

This is an increase over last year of $170.02.

To this balance may be added the Government payment for Sept. Quarter, which was not received by your Treasurer until last week, but which properly belongs to the year 1901. This receipt is $438.60. This will make the balance to begin the year $867.63, as against $159.01 for the previous year.

The accounts for December Quarter, 1901, were passed by the auditors and commissioners on Jan. 11, and amounted to about $1400.

Your commissioners made provision at their last meeting for borrowing such sums of money as might be required to pay the accounts of the December Quarter, and your Warden and Treasurer issued a note for $1000 on the credit of the county which your council are now required to ratify.

You will also require to make further provision for borrowing such sum or sums of money as may be required for current expenses for the present year.

You will find an attached statement of the Legislative Grant to P. S., and also a statement of N. R. Taxes. The accounts in both cases are balanced, leaving no money in your Treasurer's hands belonging to the P. S. or municipalities.

You will also find attached the annual statement re House of Refuge, showing receipts and expenditure for the year and the cost of maintenance per inmate.

ROBERT CRAWFORD, Co. Treasurer.

Treasurer's Statement

BRAMPTON, JUNE 3, 1902

To the Warden and Council of the County of Peel:

Gentlemen:

I herewith submit the estimates for the year 1902.

There was a balance to the credit of the county on the first of January, 1902, of $429.03, being an increase on the previous year of $170.02.

Our liabilities at the beginning of the year for outstanding debts were about $1000.

I have received from the Government since the first of January for Administration of Justice $1685.70, being for September and December Quarters, 1901, and March Quarter, 1902. Your Warden and Treasurer have borrowed from the Merchants Bank to this date $5000, being a decrease from the same date in the preceding year of $2500. The balance to the credit of the county at this date is $569.15, and there are no outstanding debts, except what may come up at this meeting of your council. I think it would be advisable to make the rate the same as last year so that our balance at the end of the year might be increased sufficiently to carry us through the first Quarter of the new year.

Your obedient servant,

ROBT. CRAWFORD, Co. Treas.

AUDITORS' REPORT

To the Warden and Council of the County of Peel :

Gentlemen :

Your Auditors beg leave to report that they have carefully examined the books and vouchers of your Treasurer for the year ending Dec. 31st, 1901, and have seen properly certified cheques or vouchers to correspond with the various entries.

Your Auditors notice that the sum of $13500 was borrowed from the Bank in 1901, which necessitated the payment of $329.86 interest, which is a reduction of $31.81 in the interest since 1900, when the sum of $361.67 was paid on $13,000 borrowed, the cause of the reduction in the interest account being due no doubt to the cheaper rate of interest obtained by the Council last year.

Your Auditors also find that there is a balance in the Merchants Bank to the credit of the County of $429.03, being an increase of $170.02 over last year. To this balance may be added the Government payment for Septemper quarter, which was not received by your Treasurer until last week, but which properly belongs to the year 1901. This receipt is $438.60. This will make the balance to begin the year $867.63 as against $259 for the previous year.

Your Auditors also desire to compliment Mr. Crawford on the efficent manner in which he discharges his duty as Treasurer, his books in every respect showing carefulness and executive ability.

We further desire to tender to Mr. Crawford our sincere thanks for assistance rendered us in auditing of said accounts.

All of which is respectfully submitted.

J. H. WATSON
GEO. HILLYARD } Auditors

Second Report of Commissioner on County Bridges for Toronto Township East Side.

To the Warden and Council of the County of Peel :

Gentlemen,—

Your commissioner begs leave to report that in conjunction with Mr. Evans, Commissioner for the County of York, we let the work of opening a channel in the Etobicoke River, reported in my first report to Mr. Briens for the sum of one hundred dollars.

We also let the painting of the county bridge over the River Etobicoke on the Lake Shore Road to O. L. Hicks for the sum of thirty-five dollars, the county to furnish the paint, the paint costing forty-five dollars and ten cents ($45.10).

This work is all completed and I would recommend that one half of these amounts be paid to the County of York, they having paid the full amount.

We also found it necessary to have the floor of the county bridge over the River Etobicoke on the first line, east of Dundas Street, re-planked. We therefore had it decked with white oak plank at a cost $74.87 for plank, and $5.75 for spikes and planking.

I would recommend,that this amount be paid to your commissioner and one half charged to the County of York.

We also found it necessary to have some repairs made to the approaches to the county bridge over the River Etobicoke, known as Craig's bridge. We arranged with the Reeve of Toronto Township to do the work for the sum of four dollars. I would recommend that said amount be paid to the Township of Toronto and one half charged to the County of York.

Report of Committee Appointed to Purchase a Rock Crusher

To the Warden and Council of the County of Peel:

Gentlemen:

Your committee appointed at the November session of the Council to purchase a rock crusher for the county, ask leave to report as follows:

We found there were only two manufacturing firms in Canada that manufactured rock crushers, viz: The Sawyer Massey Co. and the Good Roads Machinery Co., both of Hamilton.

We interviewed both the above firms and saw the machines tested.

The Good Roads Machine Co. were unable to show us a machine fully mounted and set up. We were therefore unable to judge fully of its merits, but from what we could see and learn we believe they make an excellent machine. However, after due consideration, we purchased the Sawyer-Massey machine, with 14ft elevator and chute screen, for the sum of $1,025, delivered at Brampton F. O. B. With a discount of 10 per cent. to be paid for on the 1st of June. The rock crusher to be delivered about the first of May, which we thought would be as soon as required, but if your council require it at an earlier date they can have it by notifying the Sawyer-Massey Co. to that effect.

All of which is respectfully submitted.

Report No. 2 for the Year 1902 of Standing Committee on House of Refuge and Industrial Farm.

To the Warden and Members of the County Council :

Gentlemen :

Your Committee ask leave to submit their report for the year ending 31st day of December, 1902.

1st. Your Committee audited quarterly and ordered payment of accounts during the year 1902, amounting to $2125.06.

2nd. The receipts for the year, including $91 received from the Township of Esquesing for the keep of Mr. Munro, amounted to $710.20 and the disbursements (including salaries and wages) to $2125.06.

3rd. Your Committee took stock at the beginning of the year and found on the farm goods and chattels to the value of $2078.42, being an increase over the preceding year of $122.17, said amount being added to the receipts, making a total of receipts for the year of $832.37. Your Committee deducted the total receipts from the disbursements and find the County had an outlay for the year 1902 of $1292.69, being an increase over the preceding year of $294.51.

4th. Your Committee find from the books of the keeper that there were 36 inmates in the House during the year or an average of 25 3-4 for the whole year. We also find that 19 of the inmates were in the Home during the whole year. The total number of days' board furnished for the year, including servants and officials, was 9419 and the cost of maintenance per day was 13¾c each or 96c per week, being an increase over last year of 22c per week.

5. Your committee are pleased to report that the farm and surroundings are very much improved, the stock, buildings and implements, are well taken care of and the land is in a very high state of cultivation, the whole of which reflects great credit on the skill and industry of the keeper.

6. Your committee would recommend the building of a roothouse for potatoes and other vegetables, as we find they cannot be kept in the cellar on account of the heat from the furnace and pipes. We also find that the light plant is worn out and would recommend that some better plan of lighting the house be provided.

7. Your committee inspected the Home, talked with the inmates and found everything clean, well kept and in proper order, the inmates appeared comfortable, contented, and very little grumbling.

The number of inmates from the different municipalities during the year were as follows :

Chinguacousy	8
Caledon	8
Albion	2
Toronto Twp.	11
Toronto Gore	2
Brampton	3
Streetsville	1
Bolton	0
Halton Co.	1
Total	36

8. In conclusion your committee desire to place on record their appreciation of the very kind and obliging treatment which they have received from the Keeper and Matron of the Home on all occasions during business relations with them.

9th. We also recommend that the following accounts be paid your committee for services rendered.

E. J. Ellis, 1 day at Alton purchasing cattle	$3.00

Report of Special Committee appointed Re Heating of the County Buildings.

BRAMPTON, JAN. 27th, 1903

To the Warden and Council of the County of Peel:

Gentlemen:

Your Committee appointed at the November session of Council to get information and the probable cost of the most improved method of heating the County buildings, beg leave to report as follows:

1. After calling the Committee together to take into consideration the question of heating, it was thought best to visit Hamilton and Toronto to see some of the modern improvements in the way of heating.

2. On the 6th of this month we went to Hamilton and visited the following places where modern heating plant is used:—The Bank of Hamilton, Royal hotel, City Dairy, H. & B. R. station, also the Smith House, all of which are heated with the latest improved heating, and any one of which is larger than our gaol, and most of them much larger than the Court House.

We also visited in Toronto, and the following places were gone through:—The Dominion Radiator Company's buildings, about four times as large as our County buildings are, and it was heated through perfectly. We also went to the City Hall, Fire hall on Bay St., and King Edward hotel, all of these buildings are heated with up-to-date heating appliances.

The Bank of Hamilton, which is larger than our Gaol, is heated with twelve tons of coal.

3. Therefore we would recommend that the Gaol be heated with hot water and the Court House and Registry office be heated by steam.

4. After seeing the plan which M. P. Huffman submitted to the Council, and the information we received with regard to the probable cost, and the vague way he gave us to understand what the plans and specifications would cost, we would recommend that Andrew Rodgers of Hamilton, be employed to draw plans and specifications for the whole of the plant, as his charges are moderate and we think him up-to-date on the heating question.

He is making a specialty of it, his charges are two per cent on the whole cost for the plans, or five per cent if he should superintend it to completion. He does not want the Council to use any one particular

man's goods, and his estimate of cost is under $3,000 on the whole plant.

All of which is respectfully submitted.

Public School Inspector's Report

Brampton, June 2nd, 1903

The Warden and Members Peel County Council :

Gentlemen,—I have the honor to submit my report for the year 1902. The progress of Public School education is a subject of most vital consideration. Considered in the narrower sense, the Public Schools are making progress. The chief subjects of instruction are better taught than in former days. In a general sense, there is a greater proficiency in all branches of knowledge. The attainments of Public School pupils are far in advance of the standard of fifteen or

twenty years ago. Our Normal and Model Schools have provided teachers expert in the application of methods of teaching and in all that pertains to school discipline and organization. And I am glad to state that these teachers, so far at any rate as the County of Peel is concerned, are earnestly endeavoring to discharge their duties.

But our educational system has national aims that can be realized only through the instruction of the individual in the light of the national idea. A system of education must be reflected in the national life and progress, and the men and women to whom its direction is committed must be vitally related to the national progress. Unless the energies of all concerned in educational work are controlled and stimulated by national aims and social considerations of the highest import, the educational result will be barren of influence upon public progress and national life.

I will not say that this is, in any measurable degree, the case in Ontario. This I can say: We have, in reality, no teaching profession reflecting in its status, its permanence, its rewards, its permanent ideals, the ideal of national greatness and power. No matter how perfect our method of teaching and discipline may become, or how completely we may equip our schools, no matter how carefully we may legislate for the establishment of Schools of every grade to meet every social and material need of the life of the country; our efforts as legislators, as administrators, on behalf of education, will be seriously nullified just so long as the teachers and educational administrators of the country remain without adequate recognition and reward, unnerved by the precariousness of their calling, cut off as it were from the main currents of National life and progress.

This Province needs a body of teachers who will remain teachers and constitute a profession. I am far from under-rating the usefulness of the young teacher. His enthusiasm, energy, and application, are all to be admired. But he needs much more.

"Knowledge comes but Wisdom lingers," and the highest attainments of Scholarship must be crowned with wisdom that grows with the years, the patience that is born of persevering effort, the insight that flows from experience of life, the firm hold of truth that comes from the strife for intellectual and moral certitude. These are all necessary to the true work of education in the upbuilding of character, the growth of ideals, the cultivation of national spirit, in the process of relating every individual mind to the factors and currents of national progress. An educational system that fails to produce a profession of teachers is not a success and must eventually find itself face to face with public apathy and lack of confidence on the part of its administrators.

This lack of confidence is manifested to-day chiefly in frequent changes in the curricula of studies and in the pursuit of fads of various descriptions. These changes in the course of study are not needed. What is needed is a body of leader

thoroughly trained and competent to give to the present courses of study a direction in the line of national needs and national energies, to connect the subjects of instruction with the facts and conditions of our social, industrial and national life in such manner as to cause the educational work of the day to re-act persistently and powerfully upon the national life and progress. Such a consummation of our educational efforts, and its possibility, do not seemed to have impressed the minds of those entrusted with the duty of legislating on behalf of education. And so the faddists are still allowed to ply their trade. A new course of study for public schools has been prepared in which the chimerical notion finds expression that nearly all the elementary subjects of instruction are te be approached through nature study. Thus the fundamental truth that the understanding makes nature is overturned, and the faddist devotees of nature study cannot see that it must be postponed to a period in the child's life when the more important categories of thought have been developed. Then the pupil should most certainly employ his trained attention and powers of comparison and inference in nature study, and arrive at some conception of the energizing processes of nature.

To my mind, the writing method and the prevalence of written examinations have mainly tended to discredit the present curriculum of studies. I am urging upon teachers everywhere the necessity for a return to the oral method, so as to correlate reading, language, expression, composition, arithmetic, geography, history and grammar. The specializing tendency of written examinations has destroyed the relation and inter-depencence of these subjects and lowered not only their value for intellectual discipline but their utility as practical knowledge. But the relation of all these subjects to nature must be established for our pupils, who must be led to the study of nature by the use of these subjects as aids to the interpretation of nature.

I shall shortly have to ask your council to defray the cost of printing and publishing a course of study which I have now in course of preparation. The last one prepared for our county schools was published in 1890, and is now out of print. The teachers have asked for the preparation of another, and I propose to prepare another more in touch with the needs of the times, and reflecting more clearly than the last the real advancement in educational theory and practise during the past decade. It will remain on the lines laid down by the education department, and will contain a series of nature studies for the months and seasons of the year, adapted to all grades in the public schools.

The school population for the year 1902 did not show any further decline. In Brampton 509 pupils were enrolled. The average attendance was 383, the percentage of attendance 75. In Chinguacousy township 777 pupils were enrolled, the average was 423, the percentage 55; in Albion 805 pupils were enrolled, the average was 411, the percentage 51; in Caledon 891 pupils were enrolled, the average was 409, the percentage 46; in Toronto township 1284 pupils were enrolled,

the average was 603, the percentage 47 ; in Toronto Gore 183 pupils were enrolled, the average was 98, the percentage 53. This record of attendance is very satisfactory when we take into consideration the facts that nearly the whole school population is a rural one, and that the roads for some months in the year are among the worst that can be found in Canada. Irregular attendance continues to be the great hindrance to efficiency among the pupils. Of course many causes combine to keep pupils from school, but the main one is the apathy of parents toward the real need of education and their failure to appreciate the gravity of the injustice which they inflict upon their children by detaining them from school. Again sickness of an epidemic or contagious character is responsible for abstention of many from attendance. The scarcity of farm labor is a question so real and serious that it is affecting the school attendance in many sections. The entire evil of irregular attendance is a most serious one, and continues to call loudly for remedy. Can it be remedied by the consolidation of school sections ? I do not think so. The true remedy lies in an enlightened public opinion, in an improved sanitary condition of the schools, in an improvement of the highways, in the attractiveness of the schools and their conditions and surroundings.

Trustees and teachers in many cases continue to be too unmindful of the necessity for beautifying the school rooms and for improving the premises of the school. It is a scandal to the public, an insult to the nature of childhood, a menace to the public welfare, that such conditions should obtain as now obtain at Tullamore, S. S. No. 4 Toronto Gore ; at the school in S. S. No. 26 Chinguacousy ; at the school in S. S. No. 6 Chinguacousy ; at the school in S. S. No. 8, Caledon. The lack of a water supply, the cold and cheerless surroundings, the forbidding schoolrooms, the antiquated and uncomfortable seats, the dingy walls ; all would dampen any educational enthusiasm and chill the lives of children. The trustees in these school sections wish to be let alone. There is no reason why every schoolground should not be a pattern of taste and refinement. There is no reason why every schoolroom should not be a picture fit to engrave upon the memory to remain as a loving remembrance for a lifetime. But taste is not to be developed in a day. We are a practical people according to our lights. In 1902 the trustees of the county expended the sum of $881.23 in maps, apparatus, school furniture.

The cost of education was as follows: Brampton, $11.30 per pupil ; Chinguacousy, $10.90 ; Albion, $10.70 ; Caledon, $10.12 ; Toronto, $10.80 ; Toronto Gore, $9.05 ; the whole county, $10.65. The cost is apparently an increase over the expenditure of ten years ago. But the increase per capita is due to the smaller attendance than of ten years ago, and not to any actual increase of expenditure in the total. The greatest item of expenditure is that for teachers' salaries. In this item there is a small increase. In Brampton the highest salary paid was $750, the average salary of female teachers $335 ; in Chinguacousy the highest salary was $400, the

average salary of male teachers $390, the average salary of female teachers $300 ; in Albion, the highest salary was $600 (Bolton), the average salary of male teachers $378, the average salary of female teachers $287 ; in Caledon the highest salary was $425, the average salary of male teachers $372, the average salary of female teachers $285 ; in Toronto Township, the highest salary was $600 (Streetsville), the average salary of male teachers $395, the average salary of female teachers $320 ; in Toronto Gore, the highest salary was $300, the average salary of male teachers $295, the average salary of female teachers $295. The salaries will thus be seen to be ridiculously low, when we take into consideration the increase in wages generally and the prosperity of the country. Teachers themselves are largely responsible for this poor evidence of public appreciation. The competition among teachers is still too great and the public spirit of many trustees still too low. Too many trustees in the vicinity of Brampton take advantage of the nearness of the Model School to drive a hard bargain with the beginner in teaching. This huckstering is often practised by the wealthiest trustees in wealthy sections, and works most unjustly in many ways. The teacher so treated is never contented and will not engage in the work with ardor and enthusiasm for any length of time. The children of the section are deprived of the maturer experience in teaching for which the majority of the people are quite able and willing to pay. Such trustees should not be elected by the ratepayers of any section.

In 1902, of the one hundred teachers employed, sixty-four held provincial first or second class certificates, while the number of third class teachers was thirty-six. There is no necessity for the further employment of third class teachers in this county, and the time has arrived to put an end by legislation to this farce of allowing trustees in wealthy sections to displace experienced and successful teachers by the first modelite who offers his services at a lower salary. The model schools are doing an excellent work, and are a most necessary part of the educational system ; but they require a new distribution according to the needs of the province. The Brampton Model School is at present under most able and efficient management, and is to be congratulated upon its standing and equipment.

The County of Peel Teachers' Institute held in October last perhaps the most successful convention in its history. The interest evinced by teachers is growing every year, while the public interest in our annual assemblage of teachers is an evidence that the influence of the institute is not by any means confined to its members alone. I have to thank your council for its continued liberal support of both the Model School and the Teachers' Institute.

I have the honor to be, gentlemen,

Your obedient servant,

ALLAN EMBURY,

P. S. Inspector County of Peel.

Report of the Physician to the House of Refuge

To the Warden and Council of the County of Peel.

Gentlemen :

I submit herewith my Fifth Annual Report, as physician of the House of Refuge.

During the year, from June 1st, 1902, to May 31st, 1903, inclusive, I made 96 visits to the House of Refuge, and prescribed in 236 cases.

There was one death, William Stapleton, aged about 78 years, who died on May 10th, 1903, from gradual decay of body and mind.

There was one birth of a female child on July 14th, 1902.

Mr. Johnston, the keeper, was taken ill on February the 13th last, and suffered severely from pneumonia and pleurisy. He is improving, but is not entirely recovered. His condition was largely due to overwork, and he will require a prolonged period of rest and care.

Respectfully submitted.

First Report of Commissioner for Albion

To the Warden and Council of the County of Peel :

Gentlemen :

I beg leave to report as follows :

Your Commmissioner met the York County Commissioner, at bridge on town line, between King and Albion, opposite lot 9, and on examination found it required new planking, also two new stringers and new truss.

I also in conjunction, with the Warden, visited bridge No. 5, over branch of Humber, on examination, we found it to be in a dangerous condition. The abutments are in a bad state, and all the bridge is past repairing.

Therefore I would recommend that the span be made six feet longer, and a new steel superstructure be placed there ; also two stone abutments be built with Portland Cement. All of which will cost about $500.

All of which is respectfully submitted.

Your Commissioners instructed the Chairman to interview Mr. McMurchy, of Huttonville, to ascertain if it would be possible to have the electric light put in, and report at the next meeting.

First Report of Commissioner on Connty Bridges for East Half of Chinguacousy.

To the Warden and Council of the County of Peel, in council assembled:

Gentlemen:

My attention was called to the unsafe condition of the Woodhill bridge, also the one at Frazer's Corners. The one at Woodhill I found required replanked, and I let a contract to George Ward, to draw the plank, recover the bridge, and grade the approaches for $5.50 also 25 cents for spikes.

I sold the old plank to Mr. Ward for $3. A balance due Mr. Ward of $2.75.

Mr. Middleton having repaired the said bridge on two occasions I recommended that he be paid $1.50 for his work.

The bridge at Frazer's Corners required some new plank, and the approaches graded. I engaged Mr. A. Modison to do the work and find the spikes for $4.50. I recommend that Mr. Ward and Mr. Modison, be paid these amounts in full.

Mr. Ward informs us that the Woodhill bridge will require new joists soon.

First Report of Committee on the Heating System of the County Buildings.

To the Warden and Council of the County of Peel :

Gentlemen,—

Your committee beg leave to report as follows :

Your committee met on the third day of February. James Jackson was appointed chairman. Mr. Rogers was present with the plans and specifications. After examining the plans and making some few changes the present plans were adopted.

Your clerk and chairman were authorized to advertise for tenders which they did in the contract record, and also in the two county papers.

Your committee met again on the 19th of March to open tenders We received six tenders. On examining the tenders we found Mr. Rogers' of Hamilton tender the lowest, which we accepted at $3,489.

The work is progressing favorably, the work in the gaol being completed, and on the contractor and inspector firing up so as to test the furnace we found that the chimney that the smoke pipe entered was defective and caused the furnace to smoke. Your committee ordered said chimney to be repaired, after which we expect it will have proper draft.

In reference to heating Registry Office, we found on examination that the floor in said office was too low for the present system. Therefore we concluded to put in a separate plant at a cost of one hundred dollars extra.

Your committee also appointed Mr. Peaker, of Brampton, Inspector, he being a practical man.

We agreeing to pay him the sum of ninety dollars for his services.

All of which is respectfully submitted.

We let the bridge to A. Dick & Son of Alton for the sum of $325, theirs being the lowest tender. AUDITORS' REPORT

To the Warden and Council of the County of Peel :

Gentlemen :

Your Auditors beg leave to report that they have carefully examined the Books and Accounts of your Treasurer for the year ending December 31, 1903, and have found properly atuhenticated vouchers to correspond with the various entries. We find a balance on hand to the credit of the County of $250.67, while the Merchants' Bank Book shows on the 2nd of January, 1904, the sum of $632.13, the difference being accounted for by two outstanding cheques amounting to $381.46.

We would be receant to our feelings if at this juncture we declined to place on record our appreciation of the manner in which the Books of the Treasurer are kept, and reflect credit on the executive ability of Mr. Crawford.

We further desire to tender our thanks to the Treasurer of the County for the courtesy and kindness that marked his intercourse with us while auditing said accounts.

All of which is respectfully submitted.

Court House, Jan. 29th, 1904.

JOHN T. SCOTT }
GEO. HILLYARD } Auditors.

built there at a cost of $219.00 being 175.00 for new stone abutment and $40 00 for steel beams and $4.00 to John S. Leslie for overseeing said work, one half of which has been paid by the treasurer on the order of your commissioner.

3rd. I was notified of the unsafe condition of bridge on lot 2 on town line between Chinguacousy and Esquesing and I met the commissioner from Halton there and we had it repaired so that it will be safe until next summer. I have not yet got the amount it cost and would recommend that a new bridge be built next summer.

We accepted the lowest tender ; the price per yard included the raising of the bridge, all material and all labor, the county to furnish the cement and bridge seats.

We found when we commenced work that it would be necessary to make a permanent job to have main wall with one of the wing walls entirely taken down, it being badly damaged. We also had to remove one of the wing walls and part of the main wall on west side of river.

First Report of Commissioners on County Bridges for Bolton and Toronto Gore.

To the Warden and Council of the County of Peel :

Gentlemen.

1st. My attention was called to the unsafe condition of the bridge known as "the Glasgow Bridge." On examination I found there was a large hole in the plank ; I ordered James Wilson to take three planks to the bridge, and being unable to get any person to put them in, I went myself, and in taking out the old plank I found the whole of the plank unsafe. I ordered Mr. Wilson to bring enough of plank to cover the whole of the bridge which he did at a cost of $47 55.

I employed James Henderson to put plank on and repair other bridge at $4.00. I also ordered Robert Fox to fix approach at $1.50.

2nd. My attention was called to the unsafe condition of bridge known as the "Humber Bridge," on examination I found the planking worn thin in some places and not safe for engines. I ordered James Wilson to take plank enough to lay down lengthwise, so that the wheels of engines would run on them and thus save the plank on bridge ; he did so at a cost of $5.40, which I would recommend to be paid, York County to pay one half,

3rd. I advertised the old plank for sale in the Enterprise, I also advertised old bridge at Stanley Mills.

I sold old plank of Glasgow bridge to Ernest Beamish for $5.00

I have also a bill from the Enterprise for printing amounting to $2.50 which I recommend to be paid.

All of which is respectfully submitted.

First Report of Commissioners on County Bridges for the West half of the township of Caledon for 1904

To the Warden and Council of the County of Peel.

Gentlemen,—

Your commissioner was notified to meet Mr. McKinnon the commissioner from Erin at the County bridge over the river Credit on the town line between Erin and Caledon.

I went there but the Commissioner did not attend.

I examined the bridge and found that the truss had rotted away and allowed the needlebeams to drop away from the cords of the bridge, and therefore the bridge was in a very unsafe condition.

Your Commissioner instructed James Norris, pathmaster, to have new trusses put on the bridge and would recommend that the half cost of said work be paid for on the order of your commissioner when the work is completed to his satisfaction.

All of which is respectively submitted.

Gentlemen :

Your committee appointed at the May Session to purchase coal for the County Buildings, beg leave to report as follows :

We met immediately after the adjournment of Council and instructed the Clerk to advertise for Tenders from the several dealers of the town, these to be opened on 26th May.

On May 26 we met, when the following tenders were received, opened and examined.

1st. From George Broddy at $5.95 per ton on cars at station or $6.20 delivered.

2nd. Erom Peaker & Son at $6.50 per ton on cars at station or $6.75 delivered.

3rd. From the Irvine Lumber & Fuel Co. at $6.50 per ton on cars at station or $6.75 delivered.

On motion the tender of George Broddy was accepted as follows : viz—

3 cars of about 90 tons, egg ; 2 cars or about 60 tons of furnace and one car or about 30 tons of nut, on cars at the station, Railway weight to be taken in all cases.

The coal was ordered immediately by the contractor and your committee hoped by utilizing the team at the Poor House and hiring necessary help, to be able to deliver at a saving, but none of the coal arrived until the busy season of haying and harvest set in, when labour could not be had, so that a considerable portion had to be delivered by the contractor, in other respects the contract was quite satisfactory.

House of Refuge Physician's Report

I herewith present my report as Physician of the House of Refuge for the year 1904.

During the year I made 55 visits and prescribed in 174 cases ; a considerable number of the latter were calls at my office, where medicine was given to inmates of the House who felt that they could not wait for the usual weekly visit.

There were six deaths, viz —John Bird, aged 73, from Apoplexy, January 24th ; James Pice, 84 Cystitis, May 3rd ; Marcus Rose, 80 old ago, May 7th ; Christopher Holtorf, 85, General Debility, May 29 ; Henry Tennant, 70, Paralysis, Sept. 8th ; Charles Eaton, 65, Posterior Spinal Sclerosis, Dec. 31.

All of the above had been in the House for several years, some of them from the time of its opening.

The three last named had been confined to bed for a long time, one of them, Christopher Holtorf for two years from a broken hip.

A number were admitted during the year seriously sick, but they have all shown great improvement.

We can deal fairly well with cases of sickness where not much nursing is required. When nursing is needed the hospital is to be preferred.

Some of the larger Houses of Refuge regularly sent certain cases of sickness to the Hospitals, receiving them again on recovery.

On the whole there was more genuine sickness during the year and less chronic medicine taken than usual.

I have as heretofore received every support and assistance from the Keeper and Matron of the Institution.

Respectfully submitted.

CHARLES Y. MOORE,

Brampton, 24th Jan., 1905. Physician.

Second Report of Committee on Communications of a Miscellaneous Character

To the Warden and council of the county of Peel :

Gentlemen :

With regard to the communication from Sir Wm. Mulock, chairman of a committee appointed by parliament to enquire into the various telephone systems in operation in Canada and elsewhere with a view to consider what changes, if any, may seem advisable. Your committee report as follows :

In the county of Peel there are two hundred or more subscribers with rates twenty dollars for business phones and fifteen dollars for residence phones.

Your committee consider both local and long distance rates too high, also the service from the central office independent and unbusinesslike in its methods.

Your committee would recommend :

1st. Connection with the rural districts.

2nd. Lower rates which would be the means of giving more subscribers.

3rd. Public control of the telephone system.

4th. That a copy of the above be forwarded to the chairman, the Hon. Sir W. Mulock.

In reference to a communication from the National Sanitarium Association asking the county of Peel for a grant of three hundred dollars to endow a bed. Your committee recommend the endowment of a bed by the county of Peel. (This clause was amended in committee of the whole by making a grant of $50.)

With reference to the memorial from Leeds and Grenville counties recommending that the Government grant to the common schools of Ontario should be increased, and that each county forward a petition to the legislature of this province to that effect. Your committee agreed with the memorial and would recommend this county to prepare and forward a petition.

With reference to a communication from the president of the fruit growers association asking a grant of twenty-five dollars for the fruit, flower and honey show, your committee recommend that no action be taken.

All of which is respectfully submitted.

Report of Delegates Appointed to Attend Good Roads Convention Held in Toronto April 12lh and 13th, 1905.

To the Warden and Council of the County of Peel :

Gentlemen :—

We attended the Western Good Roads Convention held in the city of Toronto, April 12th and 13th, 1905 ; there was a very large attendance; also a very large deputation from the County of Elgin, asking the Good Roads Delegates to join them to petition the Legislature to amend the law in respect to the liability of Municipalities for Accidents.

On motion the Elgin deputation was heard, the result was the whole of the afternoon was taken up considering the legal and other aspects of the subject.

Another meeting was held in the evening to organize to wait on the Legislature the following day.

April 13th, about 400 delegates waited on the Government, the largest deputation seen at the Parliament Buildings for a long time. A number of speakers addressed the Members of the Government present in reference to Sec.———of the Municipal Act.

Hon. Mr. Whitney said in reply that the Municipal Act was in his opinion much too large and should be reduced at least one third.

He also stated that he could not see his way clear to relieve the Municipalities of their liabitities in case of defects in the roads.

In reference to the Good Roads grant the government promised to extend the time for the Counties to take hold of it for another year :

Convention met at 3 o'clock.

The first subject discussed was our winter roads and after a lengthy discussion, in which men of large experience and from different parts of the western half of the province gave their experience, the conclusion was that a bonus given by the Township or County Councils for the removal of the Wooden fences that causes snow to accumulate was the best and cheapest way ; some townships giving as high as 30 cents per rod for the removal of fences.

Professor Campbell was then asked to give a talk on the uses of cement. He strongly urged the use of cement alone for all culverts and bridges up to 30 feet span ; he would not use any pipe less than 12 in. diameter, and would recommend 18 in. or 2 ft. even if less would carry the water, the great danger is filling up with snow and ice in the winter time and bursting the pipes.

He also guaranteed that bridges up to 30ft. span, if built carefully under his direction, all of cement, with iron rods 1 ft. apart placed in the covering as the cement was being put on, the bridge

would not exceed the cost of a steel top and there would be no plank required. Any municipality wishing to build and sending him full particulars as to width and height he would send full directions.

The Western Good Roads Association intend, if funds will permit, to publish in pamphlet form a full account of the convention.

The officers were then elected for 1905-06 and the convention closed.

All of which is respectfully submitted.

Public School Inspector's Report

To the Warden and Members of the County Council of the County of Peel :

Gentlemen :—

I have the honor to submit my report for the year 1904. The chief subject of interest with regard to the Public Schools was the adoption of a new Course of Study issued by the Education Dept. The object of the change was to bring the work of the Public Schools into greater harmany with the conditions of modern knowledge and also with the conditions surrounding the school and its place in the community. As yet, the experiment has met with but very indifferent success, owing partly to the radical nature of the changes involved, partly to the inadequate preparation of the average teacher, but mainly to the indisputable fact that the school life of the pupil is all too short for the work outlined and to the inevitable conclusion that the best interests of the pupils would be subserved by an adherence to the absolutely essential subjects of instruction. When we remember that the period of compulsory attendance is between the ages of eight and fourteen years, and that the law in this regard is practically a dead letter, we cannot come to any other conclusion than that in order to guard against palpable illiteracy on the part of the youth of this province the absolutely essential subjects of instruction must be closely and faithfully followed. So far as the new Course of Study tends to press upon the teacher a more rational method of instruction, a more direct appeal to child Experience the necessity for training pupils to observe and note in systematic form the phenomena of nature about them, so far is it to be commended ; but it does not follow that this good result will be achiev-

ed, unless we get quite rid of popular ideas of education, of the teach er's true sphere of duty, of the place of mere knowledge in education. So long as the subjects of instruction are regarded as ends in themselves instead of as means to an end, so long as parents regard knowledge as education, and the teacher's ability to pass candidates as the test of his efficieny, just so long will the pressure of popular opinion and this criterion of the teacher's success induce him to disregard the culture side of any course of instruction in his efforts to have his pupils master its contents. Real education as a result of Public School work is rendered impossible from two points of view. In the first place, the curriculum just adopted is too greatly congested to permit of its mastery between the ages of eight and fourteen years. Secondly, the teacher's tenure of office is too unstable, his prospect of advancement too uncertain, his remuneration altogether too inadequate, his position in the community too dependent to ensure, in any reasonable probability, his application to the achievement of of any other ideal of education than that which is prevalent in the community. He fails to impress his true ideas of education upon the community at large. But he remains in the ranks of the martyrs no longer than he can help, and moves in from a meagre salary to a more lucrative one in a more congenial occupation. Friends of education say that the trustees must be educated up to the idea of giving adequate salaries and of retaining experienced teachers. This education of trustees will never come under the present conditions of the teaching profession. The question of the proper remuneration of teachers is one to be faced by the government of the day. We must have legislation to prevent the invasion of the teaching profession by immature youths of meagre and uncertain attainments, and by all those intending to make teaching a stepping-stone to some profession more properly estimated. We must have legislation to provide for the greater security of the teacher in his position, to prevent his wrongful dismissal to make way for a cheap competitor.

There are other forces that militate against the success of the Public Schools. They have suffered on account of their subordination to the high schools. The conditions of admission to the latter have for many years been such as to guarantee no thorough training on the part of those admitted. I can say, without any fear of contradiction, that pupils are admitted to many high schools merely to swell the high school attendance. The entrance examination has become in some places a mere farce. Pupils are admitted who are notoriously incompetent to enter upon high school studies. The entrance examination should be raised in character to correspond with the P. S. Leaving Examination of former days, and the candidates should be retained in the public school until they have become thoroughly grounded in the whole course of study.

Irregular attendance is still an insuperable obstacle to progress. The Truancy Act is everywhere disregarded because no one can be found with back-bone and spirit enough to see to its enforcement. In many portions of the county the attendance could be increased by the consolidation of school sections and by conveying pupils to and from school. But there is need of law enforcement. There is need of resolve and public spirit in every section, there is need of strong men as trustees, there is need of a general awakening from the lethargy caused by an absorption of men's minds in purely material and selfish interests, there is need that men who call themselves Christians should awaken to some sense of duty to their neighborhood, to the community, to the nation.

That portion of the School Act requiring trustees to hold meetings quarterly is not generally observed. Men who will not [illegible] form themselves of the conditions in and about the school should not hold the position of Trustees. Our trustee Boards should have at least five members, and should transmit minutes of regular meetings to some authority competent to deal with them. The present administration of our public schools is extremely unsatisfactory, and a change is imperative to secure better conditions for carrying on the work of education in rural schools. However, there are many boards of Trustees keenly alive to the needs of the schools, and quite willing to second the efforts of the teachers. They respond as a rule quite readily, to the request for school supplies and apparatus. The amount expended yearly for the latter is quite considerable.

TEACHERS' SALARIES AND CERTIFICATES

	No. Male	No. Female	Highest Salary	Average S'l'y Male	Average S'l'y Female	Certif's 1	2	3
Brampton	1	9	$850 00	$850 00	$350 00	1	9	0
Albion	6	12	650 00	405 00	316 67	1	9	8
Caledon	6	14	465 00	384 16	305 72	0	6	14

County	29	70	$850 00	$417 25	$321 00	5	50	44

It will be observed from this table that the number of teachers holding the higher grades of certificates is on the increase, but that the number of female teachers is far in excess of the number of males. I may say, without any intentional disparagement, that this growing excess is in some measure responsible for the gradual disappearance from our Public Schools of the higher form pupils. There is a gratifying increase in the scale of salaries, due not so much to an awakened and informed public opinion as to a real scarcity of teachers, and to business conditions that give greater opportunities to the educated

young men and women of the country. But there is no reason why wealthy sections in Peel county should employ third class teachers, why half our schools should be conducted by inexperienced young men and women. The trustees of such schools choose to ignore experience in teaching, and give the preference to the inexperienced, because the inexperienced are anxious to obtain a start and are willing to take a small remuneration. Our schools should be classified, and teachers of a certain qualification assigned to schools of a certain grade. The so-called Patron movement had a disastrous effect upon the schools of the province. A class of men came into prominence who claimed that everybody except themselves was overpaid, that all work not of muscle was unproductive, that all professions were corporations of parasites subsisting on the hard-earned toil of the husbandman, and all salaried people should suffer a diminution of their incomes. The teachers of the province were the first to suffer and have not fully recovered. A generation will not repair the mischief wrought and the evil done to the cause of real education. Yet these same gentry have in many instances displayed a voracity for office and salary.

NUMBER OF PUPILS

Municipality	No. Enrolled	Average Attendance	Per Cent of Attendance	Cost per Pupil
BRAMPTON	496	352	71	$10 84
ALBION	792	390	49	11 87
CALEDON	824	385	47	10 76
CHINGUACOUSY	763	420	55	15 82
TORONTO	1134	590	52	13 62
TORONTO GORE	157	83	53	16 30
COUNTY	4166	2220	54	$12 88

The number of pupils enrolled was 113 less than in 1903. This falling off is due in some measure to the shrinkage of population, but there are other causes. Every year, it has been getting easier for the Fourth Class pupils to pass the entrance examination. "His associates who did not try the Entrance Exam." or, passing it, did not intend to go to the high school, considered their schooling at an end, and returned to the farm or chose some other occupation. The Fourth Classes are much smaller than in years past. This is caused by the scarcity of farm labor, although the pupils absent on this account are, many of them, between the ages of eight and fourteen years. The action of the man who will injure his son's physical well-being by imposing on him the work usually performed by an adult, and at the same time deprive him of an education, cannot be too strongly characterized. In this case, the law respecting compulsory attendance should be enforced in the interest of the child and the state.

It will be observed that the percentage of attendance is much higher in the town than in the townships. The causes are not far to seek. In the townships, bad roads, stormy weather, comfortless schoolrooms, parental indifference, all combine to prevent regular attendance and consequent progress. Yet, the percentage of attendance was higher in 1904 than in the previous year when it was only 52 per cent. It is a cause of much satisfaction to know that the people generally are awakening gradually to the necessity of more comfortable school surroundings and equipment. The latter has much to do in promoting regular attendance in the schools.

CLASSIFICATION OF PUPILS

Municipality	First Class Part I	First Class Part II	Second Class	Third Class	Fourth Class	Fifth Class
BRAMPTON	98	83	97	136	82	0
ALBION	162	94	140	167	171	74

TORONTO	229	154	228	254	250	19
TORONTO GORE	22	24	26	27	47	11
COUNTY	829	552	751	939	928	167

Here we see that 33 percent of the pupils are in the first class, 18 per cent in the second class, 23 per cent in the third class, 22 per cent in the Fourth class and 4 per cent in the fifth class. This is a very satisfactory classification ; but the cardinal defect in our present school organization is that it is an attempt to fit the pupil to a certain course of study instead of attempting to fit the course of study to the pupil. All schemes of uniform promotion lend themselves in a greater or less degree to this evil, and yet, without such examinations, the organization of a Public school in the hands of an inexperienced teacher very often falls into confusion. The teachers of the county have so far adhered to the system of uniform promotions; but then, such promotions are almost altogether in the hands of the teachers. The course of study is laid down for each class, and examination papers are prepared for the different grades on the basis of this course of study. The teachers read the papers, value them, make the promotions, and report to the Inspector. But if the time ever arrives when we shall have experienced teachers only, I shall be prepared to do away with such examinations in the interest of both teacher and pupils. I believe in more freedom, greater independence, for the teacher, and in consequence, in the teacher's rising to a greater sense of his own responsibility, in his firmer reliance upon his own resources. An old maxim is, " never do for a pupil what he should be able to do for himself." I think this maxim could be very safely applied to the

teachers themselves. In these days, every sort of school help abounds, questions and exercises upon all school studies, hints and suggestions, to such a degree, that all originality on the part of the teachers using them is stifled, while their teaching becomes lifeless. Its substance, which should come from the heart and brain of the teacher proceeds only from the lips and an exercise book and falls without any germinating power upon minds hungry to grasp the living truth. The young teacher begins with a too imperfect knowledge of the subject he essays to present. Instead of looking at his subject in all its phases, examining it from every point of view, and connecting it with the whole to which it belongs, until it grows before his mind a living reality, a body of indisputable truth, reflecting light upon all his experience and calling forth from his mental treasure house illustrations of its truth and force; he is generally found to base his teaching upon an imperfect knowledge of his subject aided by a wealth of examples drawn from some exercise book, just as some people, fancying themselves religious, relate their experiences with a volubility and wealth of expression born of repeated relations of experiences by pastmasters in the art. The teaching based upon such preparation is without life, without spirit, and the man or woman teaching with such knowledge and preparation is quite unfit to test the reality of a pupil's knowledge.

COUNTY	$134,200	$17,950

I think it would be difficult to find in this province another county as well supplied with school houses as the County of Peel. And yet I am bound to say that the care devoted to the preservation of all this valuable property is totally inadequate. Roofs and chimneys are allowed to fall into decay causing discomfort within the school-rooms, floors are allowed to wear out and to be patched until they are unsightly, the water from the roofs is allowed to accumulate about the foundations until the latter are undermined and the walls give way; outbuildings are neglected until they become a menace to public health, sweepings are scattered about the doors to spread disease and attract vermin, walls and ceilings are blackened with smoke, while, from the lack of frequent scrubbing, a palpable dust is ever floating in the school-room, a veritable medium of infection. Is this condition general? No, indeed, most trustees are now keenly alive to their duty in this

respect but there are some notable exceptions. The school at Derry West is a sample of what negligence on the part of the trustees entails. The school-room there is the most forbidding in the county of Peel and yet the secretary always promises improvement, but the improvement has not yet arrived. The school house in S. S. No. 26, Ching., so often referred to in my reports, still stands a monument to public indifference to education, a blot upon the fair fame of the section, and a disgrace to the school system that won first place at the World's fair. I have grown tired asking the trustees of the section to provide a suitable school house. School house in U.S.S. Nos. 4 Albion and 20 Ching. has been condemmed for some time, and I am glad to learn that the trustees have this year, 1905, taken steps to replace it by a building suitable for school purposes. New schools are needed for Malton, Elmbank and Erindale, and it is to be hoped that the trustees of those schools will soon take steps to provide the school children with proper accommodation. An addition is needed to the Port Credit school where only two teachers are employed to teach over 100 pupils. A three-roomed school should have been built in the first instance. The trustees of Bolton public school have not yet decided upon a definite course of action since the rejection of the by law submitted to the ratepayers to grant money for the purpose of building. But a new building is sorely needed, and any attempt to patch up the existing building will be found costly in the end. New schoolhouses were built in School Sections No. 6 in Toronto Township, Clarkson and No. 16, Chinguacousy. Both are substantial brick buildings of good design and plan and reflect much credit upon the people of those sections. The building in S. S. No. 16, Chinguacousy is still incomplete ; but I trust, that at my next visit, I shall find the work complete and entirely satisfactory. I am at a loss to discover why trustees and teachers cannot and do not unite to beautify the school grounds, and to make the school premises as attractive as any in the section. Why should not pupils and teacher unite to make the school room beautiful, homelike and cheerful? The influence of surroundings is a factor not to be neglected in education. The softening of manners, the humanizing of affections, the curbing of destructive propensities, the self-respect engendered by congenial and pleasant environment, are all permanent in their effects and follow the pupil throughout his career.

The larger expenditure for Chinguacousy and Toronto township is due to the erection of school houses already referred to. The expenditure for libraries, maps and apparatus for 1904 exceeds that of 1903 by over five hundred dollars. This excess is largely due to the establishment of school libraries. These are serving a noble purpose. The youths of the province will be led to acquaint themselves with the best thoughts of the best authors, and to read the literature of many of the subjects of instruction which, without such books as treat of geography and history, in accounts of voyages, discoveries, in biographies, in Natural Descriptions, in accounts of heroic deeds and adventures, would remain meaningless and tasteless for the average public school pupil. Such books widen the pupil's views of life inspire him with ideals of principle and action, develop his inner longings into definite aspirations toward the heroic, the true, and the good and insure to him many of the priceless treasures garnered in the storehouse of the world's literature. The taste for reading and the habit of reflection formed by the pupil in studying the masterpieces of literature under the supervision of the teacher, will follow him through life and make for him what literature ought to be to all---a companionship with the best ideals and sentiments of the ages. It is only through literature and its resources that one is enabled to take up into every stage of life the hopes and aspirations and feelings that animate all preceding stages. And this is the end of education in one real sense. to make life a living whole. It is to be hoped that trustees will willingly second the teacher's efforts in securing a well-selected library for each school in the County of Peel. I am glad to be able to state that nearly all the schools are now well supplied with maps and apparatus, and at the same time I wish to express my regret that in many schools the maps are not used as much as they should be used.

These sums expended in the yearly education of over four thousand children may appear enormous to those to whom the benefits of education do not appeal, but they should lead those who do prize education and culture to weigh carefully the results and to make enquiry as to their reality. There is no subject of more engrossing interest to

the ratepayer, and he should carefully inform himself of the real conditions of Public School education and assist in the work of improving the conditions and perfecting the administration of our Public School system. I do not hesitate to say that the results are at all commensurate with the expenditure. Many of the reasons for this have already been pointed out. The youth and inexperience of many teachers, their inadequate preparation, the insecurity of their positions, the lack of permanence to the profession, the irregular attendance of pupils, the congestion of the curriculum, the apathy of trustees and parents, etc., all combine to minimize the sum total of the benefits which our Public Schools are established to bestow. In the face of all these deterrent forces, it is a wonder that the results are as satisfactory as I know them to be. But there is one condition that the Education Dept. will have to bring about. The Public Schools must be freed from any dependence upon any other section of our educational system. Courses of Study for Public Schools prepared by men who have little or no acquaintance with local conditions or with Public School work must be consigned to oblivion, and the work must be entrusted to those having experience of the educational system as a whole. The new Course of Study in its present plethoric condition is a misfit. To ensure any chance of its adoption in any way approaching completeness, the compulsory period of attendance should extend from eight to sixteen years of age. Under present conditions of attendance no more than the essentials can be followed in Public School work. What is really needed is greater efficiency in the essentials.

An American writer on Education, who is also a school superintendent says:—"The Common Schools must be more than a place for simply protecting a few mental gymnastics, in order that the pupil may hope to enter some higher institution, and there, complete his education. The Common Schools must meet the requirements and responsibilities of every day life. Too much is attempted, too little is thoroughly done. If all who so zealously advocate higher education, and who think it is to be brought about by schemes for railroading pupils out of the elementary schools through high schools into colleges and universities, would only stop, take their bearings, and note how few pupils in this bread and butter age ever go beyond the eighth grade and then place the stress where it ought to be placed, in securing a better system of elementary schools doing more efficient work we should have not only more higher education, but would be subject to less just criticism; and the state would many fold enhance the value it receives for money paid for education in that best higher education, that of the great mass of the people, It is to be regretted that most prescriptions for the Common Schools are written by professors in colleges and universities, who, rarely, except vaguely and hazily, know anything about the conditions and work of the elementary schools, and who uniformly, consider them only in the light of

feeders existing solely for the sake and convenience of higher institutions. This is a serious mistake. Our Common Schools are essentially finishing schools instead of preparatory schools, in so far as school education goes. When a school sacrifices efficiency in order to meet the requirements of higher institutions, and then finds that possibly only one student in several years enters a higher institution, at whose expense is the one prepared ? Why, at the expense of the remainder of the school. The work of our best teachers should reach the ninety and nine" These words are fully applicable to the present condition of our Public Schools, which are regarded as mere feeders to the High Schools. Whitelaw Reid said in a recent address, "We must insist that the common schools teach, with a thoroughness not so generally attained as is needful, the three things that make the basis of all subsequent work. The pupils should learn, learn until they really know how, to read, write and cipher ; until you make absolutely sure of that, let us have fewer frills." With this I am in perfect accord, notwithstanding the platitudes indulged in regarding the introduction of the child to Art, Nature Study, Myths and Legends.

However, the new Course of Study presents many features to be commended. It presents new points of view for the teacher. Nature Study is but a mode of presentation ; it provides new centres of interest and new modes of activity for the pupil, and enables the true teacher to utilize that interest and activity in framing lessons in Conversation, Composition, Reading, Spelling, Arithmetic and Geography. Every child is interested in some phase of Nature ; few children are interested in books unless they are illustrated by pictures appealing to the child's interests, activities and experiences, unless they contain the literature of such interests and activities. But the scientific equipment of our teachers is quite inadequate to enable them to deal with all that is set forth in the Course of Study. In all probability, that equipment will never be adequate, and should not be so unless we prefer a one-sided education for our teachers. But this question of the training of teachers remains to be put in its true light. " Education is an affair of state. The support of our schools and the supplying of them with competently trained and sufficiently remunerated teachers is a responsibility resting upon the state. The government of the day is the exponent of the state—the embodiment of the voice of the people ; and it is in the inclination of the people, developed along the right lines by those who would represent the public interest in Parliament, that we must finally seek to locate the cause of any inadequacy in our appliances for the training and payment of teachers." So writes the Inspector of Superior Schools, Province of Quebec. His observations are correct. Unless the will of the people be thoroughly understood, unless the popular tendencies be carefully sized, unless the elements of national life and their interaction be carefully studied, and the destiny

of the people grasped by prescient minds, there can be little hope for rational advancement in education. Those called upon to administer and mould educational institutions should be statesmen, not politicians without statesmanship, not mere educationalists without political knowledge and experience, but statesmen broad enough in their statesmanship to embrace in the sweep of their vision the true bearings of this great question of education. Are our present Normal and Model Schools effective agencies for the training of teachers ? I know not. They fail in the first essential requisite of professional schools. They fail to eliminate from the ranks of the teaching profession the illiterate, the incompetent, the physically and mentally and morally unfit. They fail to create ideals, they raise a structure of method upon a foundation of sand, and graduate the student with a mass of memoriter psychology and principles of teaching that burden his mind until the incubus is thrown off in the throes of actual experience. Thus the young teacher is found to depend on special preparation for each lesson, and the lesson in consequence, lacks life and interest. The preparation the teacher needs is the constant application of his mind to the subjects and problems of his work so that, full of his subject, he comes before his class, not with his special examples and method cut and dried, but with a mind conscious of power in the possession of and mastery over knowledge which to him is real and living. His method then becomes spontaneous, his mind becomes active, alert and he infuses into his pupils the real spirit of learning, the intense desire to know and realize. Our Model Schools should be limited in number and placed under the management of teachers of the highest culture.

In closing this report, I wish to refer to the work of our teachers Institute. The convention was held October 15th and 16th, 1904, and was an unqualified success. Dr. D. J. Goggin, late Superintendent of Education for the North West Territories, assisted and gave several addresses which proved very interesting and of much value to the teachers. The Convention devoted much attention to the new Course of Study and the teachers proved themselves keenly alive to the necessity for acquainting themselves more intimately with the new subjects and the new points of view involved in their adoption. But it is to be regretted that so few teachers contribute to the programme and discussions of the convention. I trust that, in future, a greater number of teachers will be found willing to contribute from their store of experience.

I have the honor to be,

Gentlemen,

Your obedient servant,

ALLAN EMBURY,

P. S. Inspector,

County of Peel.

We find that the County Treasurer's accounts are correct, showing no balance. We also find the accounts of the Sub-Treasurers of the Townships of Albion and Caledon correct, showing a balance of $3.00 in the hands of the Treasurer of Caledon.

J. T. SCOTT,
R. S. LIGHTHEART, } Auditors.

Brampton, Feb. 2nd, 1905.

To the Warden and Council of the County of Peel.

1st. Your Auditors beg leave to report that they have carefully examined the books and accounts of your treasurer for the year ending 31st Dec. 1904 and compared vouchers with entries and find the same correct.

We find in the Abstract Statement of receipts and expenditure the sum of $41,888.53 being the total amount of receipts or revenue from all sources and $40,768.13 the payments, thus leaving a balance of $1,120.40 deposited in the Merchants Bank.

2nd. Your Auditors further observe that in the general statement of the affairs of the County on the 31st day of Dec., 1904, the assets are $79,406.61 and the liabilities $6,270.00 leaving a balance of assets over liabilities of $73,136.61.

3rd. Your Auditors find that the non-resident land tax collected from Caledon is $97.46 and the same amount paid over, also the sum of $63.69 collected from land tax in Toronto township and the same amount paid over thus balancing accounts for both townships.

4th. Your auditors upon examination find that the school account balances, and therefore no money in the treasurers hands.

5th. Your Auditors have much pleasure indeed in recording their appreciation of the efficiency, care and attention with which the treasurer performs his duties.

We also desire to place on record our thanks to the Treasurer for the kindness and courtesy which he extended to your auditors while in the discharge of their duties.

All of which is respectfully submitted.

JOHN T. SCOTT,
R. S. LIGHTHEART, } Auditors.

(Adopted)
Court House, Feb. 3rd., 1905.

E. J. ELLIS, Warden.
